APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion, place and manner of use of a portion of the Carson River as heretofore granted under Permit 51856, Certificate 14949, which changed the place and manner of use of a portion of Claim Nos. 249, 250 and 817 of the Carson River, as heretofore granted under the Final Carson River Decree No. D-183, in the District Court of the United States in and for the District of Nevada, is issued subject to the terms, conditions and irrigation period imposed in said permit and Final decree and is subject to the conditions set forth in State Engineer's Ruling No. 3703, dated May 10, 1990, and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements kept of water placed to beneficial use.

Monthly records shall be kept of the amount of water pumped from this induction well and all of the other of Carson City's municipal induction wells, and the records submitted to the State Engineer and Federal Water Master on a quarterly basis within 15 days after the end of each calendar quarter.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

An exploratory hole may be drilled under this temporary permit, but the design of the induction well must be approved by the State Engineer prior to its construction.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 175.0 acre-feet as decreed.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

N/A

Map in support of proof of beneficial use shall be filed on or before:
