APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion, place and manner of use of the waters of the Truckee River as heretofore granted under Permit 72132; which changed the point of diversion, place and manner of use of Permit 27604, Certificate 13906; which changed the place of use of Permit 12331, Certificate 3644; which changed the point of diversion and place of use of a portion of Claim 140, Truckee River Decree, and a portion of Permit 11009, Certificate 2821, which changed the point of diversion and place of use of a portion of Claim 342, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued for the irrigation of 10.405 acres within the described place of use and will expire on October 15, 2008.

This temporary permit is subject to the continuing regulation of the Federal Water Master.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.263 cubic feet per second or 41.62 acre-feet as decreed.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:
