

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of applicant: **RODEO CREEK GOLD, INC.**
Source: **UNDERGROUND**
Basin: **WINNEMUCCA SEGMENT**
Manner of Use: **OTHER**
Period of Use: **January 1st to December 31st**
Priority Date: **06/11/2008**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permit 77127 is issued for fire protection purposes for the 5.16 acre parcel identified by the Humboldt County Assessor as APN 013-012-18. Upon cessation of the necessity for fire protection at this place of use, the water under Permit 77127 shall return to the groundwater source and no application to change or relinquishment will be allowed.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.114 cubic feet per second or 0.55 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 21, 2011

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

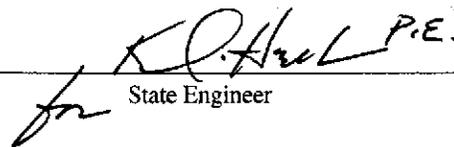

N/A

Map in support of proof of beneficial use shall be filed on or before:

N/A

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of filing in State Engineer's Office	JUN 11 2008
Returned to applicant for correction	_____
Corrected application filed	Map filed JUN 11 2008

The applicant Rodeo Creek Gold, Inc

4000 West Winnemucca Blvd. of Winnemucca

Street Address or P.O. Box

City or Town

Nevada, 89445 hereby make(s) application for permission to appropriate

State and Zip Code

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)
Incorporated in Nevada on July 17th, 1997.

1. The source of water is underground

Name of stream, lake, underground, spring or other sources

2. The amount of water applied for is 1.114 cfs second feet.

One second foot equals 448.83 gallons per minute.

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Fire protection

Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated _____

(b) Stockwater, state number and kind of animals _____

(c) Other use (describe fully in No. 12) Fire protection

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

70-44

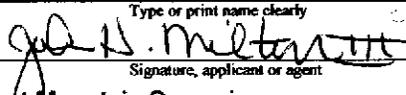

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)
within Lot 3 of Section 1, T.35N., R.37E., M.D.B.&M., or at a point from which the west 1/4 corner of said Section 1 bears S46°35'18"W 2860.28 feet.
6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated.)
5.16 acres lying within Lot 3 of Section 1, T.35N., R.37E., M.D.B.&M.
7. Use will begin about January 1st Month and Day and end about December 31st Month and Day of each year.
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)
Existing 14" well, pump, motor, buried pipeline and fire protection system.
9. Estimated cost of works: \$25000.00±
10. Estimated time required to construct works: 1 month, well is complete, see well log under permit 17236
(If well completed, describe works.)
11. Estimated time required to complete the application of water to beneficial use: 1 year
12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)
Applicants have expanded the main structure to a point where a fire protection system is needed in order to occupy the structure. Applicant proposes to use an existing well drilled under permit 17236.
13. Miscellaneous remarks:
This well will only be used for fire protection, so there will be no consumptive use. This property already has a commercial water right (permit 59794) to cover all other use.
