

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of applicant: ROBERT E. AND DARLA M. BARTELL
Source: UNDERGROUND
Basin: QUINN RIVER VALLEY-OROVADA SUBAREA
Manner of Use: STOCKWATERING
Period of Use: January 1st to December 31st
Priority Date: 02/11/2009

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 27698, Certificate 8322, and Permits 78005, 78006, 78007, 78332 and 78333 shall not exceed sufficient water for 500 head of cattle annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0155 cubic feet per second or sufficient to water 500 head of cattle.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 19, 2011

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

January 19, 2012

Map in support of proof of beneficial use shall be filed on or before:

N/A

PO Box 130 of Orovada

Street Address or P.O. Box

City or Town

Nevada, 89425-130 hereby make(s) application for permission to appropriate

State and Zip Code

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)

1. The source of water is Underground

Name of stream, lake, underground, spring or other sources.

2. The amount of water applied for is .0155 cfs second feet.

One second foot equals 448.83 gallons per minute.

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Stockwater

Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated _____

(b) Stockwater, state number and kind of animals 500 head of cattle

(c) Other use (describe fully in No. 12) _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

33A-HU

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)
within the SE1/4 SE1/4 of Section 4, T.43N., R.36E., M.D.B.&M., or at a point from which the SE corner of said Section 36, bears S16° 23' 50"E 185.0 feet.

04 M.D.B. & M. 13 Feb 2009

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated.)
within the SE1/4 SE1/4 of Section 4 T.43N., R.36E., M.B.D.&M.

7. Use will begin about January 1st and end about December 31st of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State number in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)

An existing drilled well with a solar pump and watering trough.

9. Estimated cost of works: \$5,000.00±

10. Estimated time required to construct works: The well, and trough are all in and complete.
(If well completed, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 1 year

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

All the improvements are complete, an existing well and watering trough.
