

THE STATE OF NEVADA

PERMIT TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: J & S BLISS/HUNEWILL 2004 TRUST
 Source: UNDERGROUND
 Basin: SMITH VALLEY
 Manner of Use: IRRIGATION
 Period of Use: January 1st to December 31st
 Priority Date: 11/03/1971

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 26838, Certificate 8439, is issued subject to the terms and conditions imposed in said Permit 26838, Certificate 8439 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The total land irrigated under this permit and any water of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 80 acres within the described place of use. These permits for underground water are issued as a supplemental water supply to lands that have surface water rights from the Walker River from storage water provided from the Walker River Irrigation District. The total diversion of water for irrigation from any and all sources shall not exceed the duty of water for this place of use. Underground water shall not be pumped from the well described in this permit except to the extent necessary to make up the portion of the 4.0 acre feet per acre duty not obtained from storage water in any given year.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.7 cubic feet per second or 320.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 9, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 9, 2010

Map in support of proof of beneficial use shall be filed on or before:

December 9, 2010

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 27th day of **October**, A.D. **2009**

The applicant J & S Bliss/Hunewill - 2004 Trust

Bliss Ranch 195 Hunewill Lane of Wellington
Street Address or P.O. Box City or Town

Nevada 89444, hereby make(s) application for permission to change the
State and Zip Code

Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)
Permit 26838 Certificate 8439

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 2.68 cfs
Second foot, acre-foot. One second foot equals 448.83 gallons per minute.
3. The water to be used for Irrigation and Domestic
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use.
4. The water heretofore used for Irrigation and Domestic
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
NW 1/4 NE 1/4 Section 2, T. 11 N., R. 23 E., M.D.B. & M., or at a point from which the SE corner of said Section 2 bears S 13° 59' 49" E, a distance of 5370 feet. Reference is made to the supporting map for Permit 77013 Site "A" for depiction of the proposed point of diversion.
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
SE 1/4 NE 1/4 Section 2, T. 11 N., R. 23 E., M.D.B. & M., or at a point from which the SE corner of said Section 2 bears S 1° 36' 36" E, a distance of 2651.20 feet. Reference is made to the supporting map for Permit 26838 for a depiction of the existing point of diversion.

36'

3/4/2009

107-64

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

no change

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

80 acres in the S 1/2 SE 1/4 Section 35, T. 12 N., R. 23 E., M.D.B. & M. Reference is made to the supporting map for Permit 26838 for the place of use.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing well is a 16 inch diameter well, 590 feet deep. Reference is made to the attached Well Driller's Report under Permit 77013.

12. Estimated cost of works completed

13. Estimated time required to construct works 2 years
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

Due to poor hydrologic conditions and factors, this application to change is proposing the use of the existing newly drilled well approved under Permit 77013 (Site "A"). for the water rights under Permit 26838.

16. Miscellaneous remarks:

The proposed Point of Diversion is shown on the map for Permit 77013. The Place of Use is shown on the map for Permit 26838. It is the intent of the owner of Permit 26838 to retrofit this old well for domestic use only; 2 acre feet of water rights will be withdrawn and relinquished for domestic use.
