This temporary permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 13298, Certificate 4488, is issued subject to the terms and conditions imposed in said Permit 13298, Certificate 4488 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this temporary permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.
