This temporary permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 65731 is issued subject to the terms and conditions imposed in said Permit 65731 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This temporary application is only for changing the point of diversion as the place of use and manner of use would remain unchanged.

This well currently supplies water to the Lakeside Casino and RV Park. Moreover, a temporary change application under permit number 65086 is also being submitted for use of the North well.

In addition to the North well, ETT owns two nearby wells (Middle well and South well) and the property that surrounds these two wells. These two wells currently supply water to the Lakeside Casino and RV Park and are subject of temporary change applications under permit numbers 65732, 65733, and 73518.

An application for permission to change the point of diversion is in preparation and shall follow this temporary change application to permanently change the point of diversion under permit number 65731 to the North well.
