11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing diversion under Permit 2386 to distribution facility, treatment and pipeline to place of use.

12. Estimated cost of works \$100,000,000.00 for project

13. Estimated time required to construct works 15 years for project
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 30 years for project

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

This application along with other applications propose to change existing water rights owned by the applicant for exportation from Smoke Creek Valley Basin No. 21 for municipal purposes within the proposed place of use. This project will require many years to complete due to its magnitude and construction of water distribution systems to customers. Washoe County planning studies show a demand for additional municipal water resources to supply existing development and projected growth.

16. Miscellaneous remarks:

Smoke Creek water will be diverted at the same POD as Permit No. 2386, transported to a treatment facility and/or infiltrated into the ground water aquifer through the natural stream channel and/or rapid infiltration basins, recovered by means of wells and delivered to the proposed place of use.
