

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: MORGAN LYNN
Source: UNDERGROUND
Basin: AMARGOSA DESERT
Manner of Use: MINING AND MILLING
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 07/30/2009

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance issued under the provisions of NRS 533.371 for a finite period of time. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will not be allowed.

This temporary permit shall expire on March 10, 2020, at which time all rights herein granted shall revert to the source.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.08 cubic feet per second or 6.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion

of work shall be filed on or before:

Filed Under 64856 on October 12, 2001

Water must be placed to beneficial use and proof of the application of water to

beneficial use shall be filed on or before:

N/A

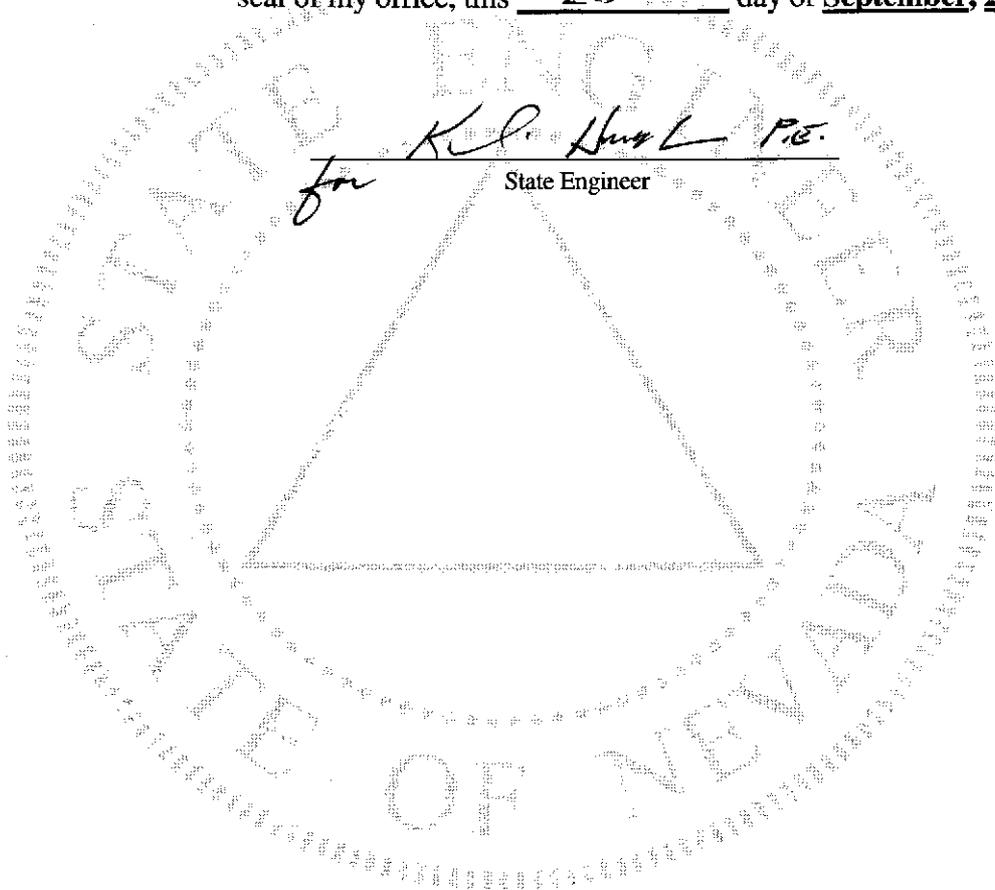

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the
seal of my office, this 28th day of **September, 2015**

for *K.L. Hunt* P.E.
State Engineer

CORRECTED PERMIT

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of applicant: MORGAN LYNN
Source: UNDERGROUND
Basin: AMARGOSA DESERT
Manner of Use: MINING AND MILLING
Period of Use: January 1st to December 31st
Priority Date: 07/30/2009

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance issued under the provisions of NRS 533.371 for a finite period of time. This permit will expire 5 years from the date that it is issued and all rights herein may revert back to the source. If after 5 years the permit still meets the criteria in NRS 533.371, the permit may be extended up to an additional 5 years. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.08 cubic feet per second or 6.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance issued under the provisions of NRS 533.371 for a finite period of time. This permit will expire 10 years from the date that it is issued and all rights herein will revert back to the source. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the exceptions set forth under State Engineer's Order #1197.

The point of diversion and place of use are as described on the submitted application to support this permit.

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office JUL 30 2009

Returned to applicant for correction _____

Corrected application filed _____ Map filed FEB 17 1999 under 64856

The applicant Morgan Lynn

HCR 70, Box 565 of Amargosa Valley

Street Address or P.O. Box City or Town

Nevada, 89020 hereby make(s) application for permission to appropriate

State and Zip Code

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)

1. The source of water is an underground source, in Nye County, Nv
Name of stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.08 CFS., not to exceed 6 AFA. second feet.
One second foot equals 448.83 gallons per minute.
 - (a) If stored in reservoir give number of acre-feet _____
3. The water to be used for Mining and Milling
Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated _____
 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

230-114

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.) OF SECTION 12 T 16S R 47E. or WITHIN THE SE 1/4 SE 1/4
At a point from which the SE. corner of Section 12, T.16S., R.47E., M.D.M., bears S. 45°00' E., a distance of 142 feet.

As shown on the map accompanying Water Right Permit 64856

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated.)

10 acres within the SE. 1/4 SE. 1/4 SE. 1/4 of Section 12, T.16S., R.47E., M.D.M.

As shown on the map accompanying Water Right Permit 64856

7. Use will begin about January 1st. and end about December 31st. of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)

an 8 in. dia. X 200 ft. deep driven well with a 1 1/2 hp. submersible pump, pipe and wire. This well is equipped with a 1 1/2 flow & totalizing water meter

9. Estimated cost of works: \$8,000

10. Estimated time required to construct works: Presently completed as Item 8 above
(If well completed, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 1 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

This water is used primarily for dust control at this gravel pit mining and processing operation, with a lesser amount used for sanitary facilities, two toilets, and four sinks

13. Miscellaneous remarks:

Presently the water is being appropriated under Permit 64856
