

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: BOWMAN CANYON, LLC
Source: DEER CREEK SPRING
Basin: PAHRUMP VALLEY
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST TO DECEMBER 31ST
Priority Date: 06/08/1907

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place and manner of use of a portion of the waters of Deer Creek Spring as heretofore granted under Permit 42628 is issued subject to the terms and conditions imposed in said Permit 42628 and with the understanding that no other rights on the source will be affected by the change proposed herein.

The issuance of this permit requires the construction of a collection box to collect and measure all of the spring discharge. Monthly records of the spring discharge must be kept and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 26361, Certificate 13627; Permits 57713, 78996, 78997 and 78998, being owned by Bowman Canyon LLC, shall not exceed 5.629 cubic feet per second and 193.64 acre-feet annually.

This permit is subject to the condition that the permittee must ensure that wildlife which has customarily used such water will have access thereto, NRS 533.367.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the Deer Spring source and not back to the base water right.

This permit is issued for Quasi-municipal purposes within the described place of use, further identified by the Nye County Assessor as APN's 134-27-601-014 and 134-27-601-015.

It is understood that the amount of water herein granted is limited to the amount of water actually produced by the spring, and no rights in excess of that amount are implied or inferred.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.65 cubic feet per second or 30.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 18 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

July 18 2014

Map in support of proof of beneficial use shall be filed on or before:
