**Basin:** ANTELOPE VALLEY

**Manner of Use:** QUASI-MUNICIPAL

**Period of Use:** January 1st to December 31st

**Priority Date:** 12/16/2009

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 50399 and 79090 shall not exceed 52.60 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.2 cubic feet per second or 52.60 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

October 11 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

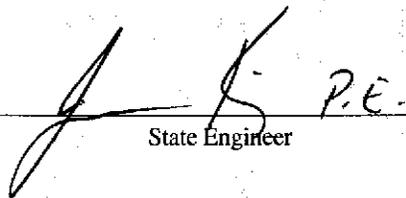

October 11 2015

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 11th day of October, A.D. 2010

**APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>DEC 16 2009</u>
Returned to applicant for correction	<u>DEC 23 2009</u>
Corrected Application filed	<u>FEB 05 2010</u> Map filed <u>FEB 05 2010</u>

The applicant Douglas Eugene Savoy, Trustee-in-Trust Overseer of the International Community of Christ, a corporation sole  
643 Ralston Street of Reho  
Street Address or P.O. Box City or Town  
Nevada 89503 hereby make(s) application for permission to appropriate the  
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)  
Applicant is incorporated in the State of Nevada based on the filing date of October 26, 1971.

- 
1. The source of water is Underground Sources  
Name of the stream, lake, underground, spring or other sources.
  2. The amount of water applied for is 0.20 cubic feet per second - not to exceed 17.14 million gallons per year  
One second foot equals 448.83 gallons per minute.
    - (a) If stored in a reservoir give the number of acre-feet \_\_\_\_\_
  3. The water is to be used for Quasi-Municipal Purposes  
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
  4. If use is for:
    - (a) Irrigation, state number of acres to be irrigated \_\_\_\_\_
    - (b) Stockwater, state number and kind of animals \_\_\_\_\_
    - (c) Other use (describe fully in No. 12) \_\_\_\_\_
    - (d) Power:
      - (1) Horsepower developed \_\_\_\_\_
      - (2) Point of return of water to stream \_\_\_\_\_

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

w/in the Lot 6 (SW1/4 SE1/4) Section 3 T22N, R19E, MDM or at a point from which the S1/4 corner of said Section 3 bears South 59 degrees 04 minutes 37 seconds West, a distance of 1,550.66 feet being within Antelope Valley Ground Water Basin No. 93

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

Within portions of the following: S1/2, S1/2N1/2 and Lot 1 (NE1/4 NE1/4) Section 3 T22N, R19E, MDM and portions of the following: SW1/4 and W1/2SE1/4 of Section 35 T23N, R19E, MDM ( Refer to Washoe County Assessor Parcel Numbers 79-520-01 through 05, 79-520-07 through 11, 79-530-03 through 06)

7. Use will begin about January 1st and end about December 31st of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled and cased well, equipped with motor, pump, flow meter and pipeline to the proposed place of use.

9. Estimated cost of works: \$35,000.00

10. Estimated time required to construct works: 3 years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 10 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The total combined duty under this application and Permit No. 50399 will not exceed 17.14 mga. The proposed point of diversion will provide water to property owned by the applicant within the proposed place of use. The proposed point of diversion under this application lies within the Antelope Valley Ground Water Basin No. 07-093.

13. Miscellaneous remarks:

Refer to letter dated August 7, 2009 on file at the State Engineer's office under Permit No. 53338 which further describes the need for this proposed well and the total combined duty under this application and Permit No. 50399. Refer to Report of Field Investigation No. 1123, dated November 18, 2009 on file under Permit No. 50399 and 53338.
