APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and all other wells at Atlanta Farms and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined net consumptive duty of water appropriated under Permits 79104, 79105, 79106, 79107, 79108, 79109, 79110, 789111, 79112, 79113, 79114, 79115, 79116, 79117, 79118, 79119, 79120, 79121, 79122, 79123, 79124, 79125, 79126, 79127, 79128, 79129, 79130, 79131 and 79637 and Change Permits, for municipal exportation to Coyote Springs Valley, under Permits 72296, 72297, 72298, 72299, 72300, 72301, 72302, 72303, 72304, 72305, 72306, 72308, 72309, 72310, 72311, 72312, 72313, 72314, 72315, 72316, 72317, 72318, 72319, 72320, 72321, 72322, 72323, 72324, 72325, 72329, 72330, 72331, 72332, 72333, 72334, 72335, 72336, 72337, 72338, 72339, 72346, 72347, 72348 and 72349 shall not exceed 11,300 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
