

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: DUCK LAKE RANCH, LLC
Source: UNDERGROUND
Basin: BOULDER VALLEY
Manner of Use: IRRIGATION
Period of Use: March 1st to October 31st
Priority Date: 02/07/2005

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 72199 is issued subject to the terms and conditions imposed in said Permit 72199 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

Permits 79642 and 79643 are entirely supplemental to any surface water rights under Claims of Vested Rights 04649, 04650, 04651, and 04652 and as such, underground water cannot be pumped unless there is no surface water available.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.148 cubic feet per second or 44.4 acre-feet seasonally for the irrigation of 14.8 acres and not to exceed 3.0 acre feet per acre from any and all sources.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 13 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

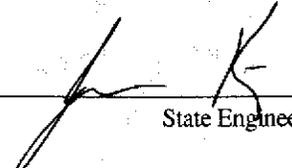

July 13 2015

Map in support of proof of beneficial use shall be filed on or before:

July 13 2015

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 13th day of July, A.D. 2010
