

THE STATE OF NEVADA

APPLICATION TO APPROPRIATE WATER

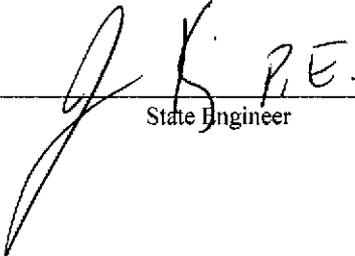

Name of Applicant: NEVADA POWER COMPANY DBA NV ENERGY
Source: UNDERGROUND (CARBONATE AQUIFER)
Basin: GARNET VALLEY
Manner of Use: INDUSTRIAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 03/15/2010

DENIAL OF STATE ENGINEER

The protests to this application are hereby upheld in part and the application is hereby denied on the grounds that there is no unappropriated groundwater at the source of the supply, the proposed use would conflict with existing rights in the Order 1169 basins and the proposed use of the water would threaten to prove detrimental to the public interest in that it would threaten the water resources upon which the endangered Moapa dace are dependent. No ruling is made on the merits of the remaining protest grounds.

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29th day of January, 2014.

State Engineer

Line 13:

This application is being filed solely as a result of the Nevada Supreme Court's decision in Great Basin Water Network, et al., v. State Engineer, 126 Nev. Adv. Opn. 2, January 28, 2010. Applicant currently holds Application 54634, which was filed with the State Engineer's Office on April 6, 1990. This instant Application is NOT to be construed as a withdrawal of Application 54634. Applicant requests that the date of filing of this application relate back to that of 54634. It should be noted that there are some differences between this Application and Application 54634 to account for current operations, but the source of water, basin and requested water duty and diversion rates are the same. The maps already filed with the Division of Water Resources for 54634 are the correct maps for this application.
