

Permit No. 79761

THE STATE OF NEVADA
PERMIT TO APPROPRIATE WATER

Name of applicant: DIBIASE LIMITED PARTNERSHIP
Source: UNDERGROUND
Basin: LAS VEGAS VALLEY
Manner of Use: COMMERCIAL
Period of Use: JANUARY 1ST TO DECEMBER 31ST
Priority Date: 04/05/2010

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of diversion herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 79760 and 79761, being fully supplemental, shall not exceed 0.402 cubic feet per second and 62.20 acre-feet annually.

The total combined duty of water under Permits 79760, 79761, 79762, 79763, 79814, 79815, 79816 and 79817, having the same place of use, shall not exceed 0.497 cubic feet per second and 128.85 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued for use at the cemetery within the described place of use, further identified by the Clark County Assessor as APN 177-12-201-002.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.402 cubic feet per second or 62.2 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

March 23 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

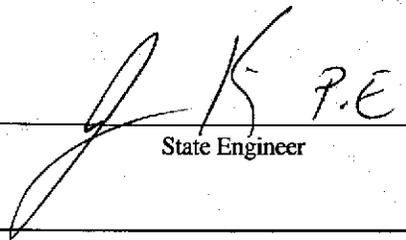

March 23 2014

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 23rd day of March, A.D. 2011

3711 So. Industrial Road, Suite 6 of Las Vegas
Street Address or P.O. Box City or Town
Nevada, 89109 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

Members of the partnership are: 1) DiBiase 2007 GST Exempt Trust, 2) DiBiase 1979 Trust/Credit Shelter Trust, and 3) SDS Trust.

-
1. The source of water is underground
Name of the stream, lake, underground, spring or other sources.
 2. The amount of water applied for is 62.20 acre-feet per year 0.402 c.f.s.
One second foot equals 448.83 gallons per minute.
 - (a) If stored in a reservoir give the number of acre-feet _____
 3. The water is to be used for Commercial
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
 4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated _____
 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

REL
4-6-10

212-02

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

located within the SW 1/4 of the NW 1/4 of Section 12, T. 22 S., R. 61 E., M.D.M., from which the West Quarter (W 1/4) Corner of said Section 12 bears S. 62 degrees 53' W., a distance of 932.00 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

within 71.32 acres within the South half (S 1/2) of the NW 1/4 of Section 12, T. 22 S., R. 61 E., M.D.B.&M., Clark County, Nevada (as shown on the accompanying map). The Place of Use is limited to APN 177-12-201-002.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

An existing 500-foot deep well presently used under Permits 57901 and 42175, along with existing pump, motor, and pipelines.

9. Estimated cost of works: Existing

10. Estimated time required to construct works: Existing 500-foot deep well with 10.75-inch casing, + pump and motor
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five (5) years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The water is to be used for an existing memorial park (cemetery). The primary use of the water will be for landscape irrigation, but water will also be used for other operating needs of the memorial park.

13. Miscellaneous remarks:

No additional water is being sought. This application is intended to be a "twin" to a change application (a change to Permit 73108) which is also for 62.20 acre-feet per year. The intention is to allow the same 62.20 acre-feet per year to be shared between the two wells on the property.
