

THE STATE OF NEVADA
PERMIT TO APPROPRIATE WATER

Name of applicant: MIKE AND BARBARA STREMLER
Source: UNDERGROUND
Basin: DIXIE VALLEY
Manner of Use: STOCKWATERING
Period of Use: MAY 1ST TO NOVEMBER 30TH
Priority Date: 05/26/2010

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued with the express understanding that any existing use of the public range by authorized users will not be impaired or adversely affected by approval of this permit.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0094 cubic feet per second or sufficient to water 300 head of cattle, but not to exceed 3.94 acre-feet seasonally.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

June 8 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

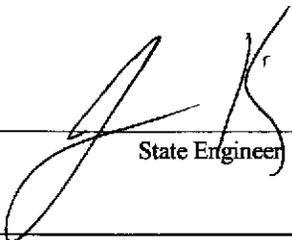

June 8 2013

Map in support of proof of beneficial use shall be filed on or before:

N/A

P.O. Box 1098 of Winemucca
Street Address or P.O. Box City or Town
NV 89446 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada; as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

- The source of water is underground
Name of the stream, lake, underground, spring or other sources.
- The amount of water applied for is 0.0094 CFS
One second foot equals 448.83 gallons per minute. 6.81
- (a) If stored in a reservoir give the number of acre-feet: 4,488 gal dist tank; 0.0138 AF
WHR 7/13/10
- The water is to be used for Stockwater
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
- If use is for:
 - Irrigation, state number of acres to be irrigated _____
 - Stockwater, state number and kind of animals 300 head of cattle
 - Other use (describe fully in No. 12) _____
 - Power:
 - Horsepower developed _____
 - Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NE NW, Sec. 25, T25N R37E, MDBM; or at a point from which the NE corner of Sec. 14, T24N R37E, MDBM, bears S0°38'29.1"W, a distance of ~~20,185~~ 20,186.2 feet.

WHL
7/13/10

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

NE NW, Sec. 25, T25N R37E, MDBM.

7. Use will begin about May 1 and end about Nov. 30 of each year.
Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

47507
Existing well (log # 47507) retrofitted with submersible pump. Stock drinks from dirt tank.

WHL
7/13/10

9. Estimated cost of works: \$2,500

10. Estimated time required to construct works: 1 month
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 2 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Water from existing well will be pumped into existing dirt tank from which 300 head of cattle will water in the season of use.

13. Miscellaneous remarks:

Well and dirt tank left from exploratory oil drilling.
