

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: JOHN UHALDE & COMPANY
Source: UNDERGROUND
Basin: BUTTE VALLEY-SOUTHERN PART
Manner of Use: STOCKWATERING
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 06/25/2010

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permit 8602, Certificate 1959; and Permits 79957 and 80890 shall not exceed 44.8 acre-feet annually, sufficient to water 1,000 head of cattle and 5,000 sheep.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, not to exceed 0.056 cubic feet per second and 40.32 acre-feet annually, or sufficient to water 1,000 head of cattle and 4,000 sheep.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

June 24 2017

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

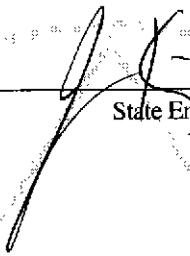

June 24 2019

Map in support of proof of beneficial use shall be filed on or before:

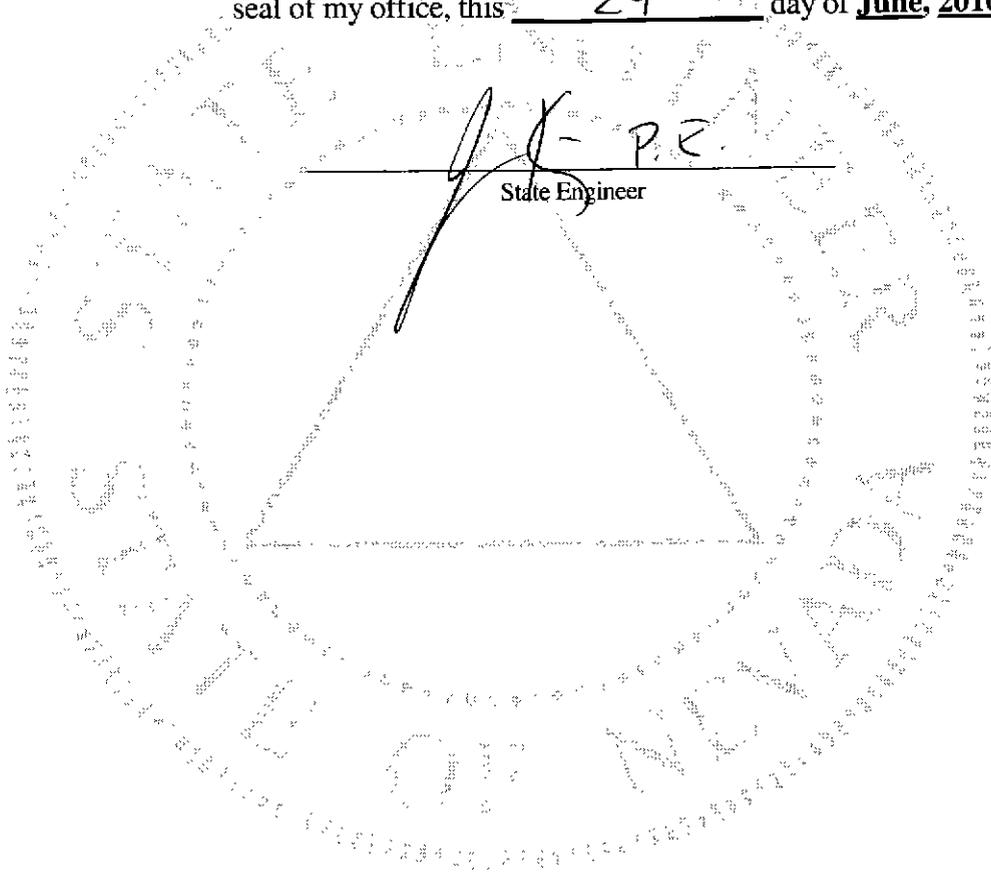

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 24th day of June, 2016

 P.E.

State Engineer

1. The source of water is Underground
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.05625 cfs.
One second foot equals 448.83 gallons per minute.
 - (a) If stored in a reservoir give the number of acre-feet _____
3. The water is to be used for Stock Water
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated N/A
 - (b) Stockwater, state number and kind of animals 4000 Sheep and 1000 Cattle
 - (c) Other use (describe fully in No. 12) N/A
 - (d) Power:
 - (1) Horsepower developed N/A
 - (2) Point of return of water to stream N/A

REL per email

178B-WF

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SE1/4SW1/4 of Section 30, T.19N.R.61E.MDM or at a point from which the South 1/4 corner of said Section 30 bears S.27°34'04"E. 1074.53 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

SE1/4SW1/4 Section 30, T.19N.R.61E.MDM within the 30 Mile Spring Grazing Allotment, White Pine County, Nevada.

7. Use will begin about January 1 and end about December 31 of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Existing 8" Well, drilled by J.D. Hill in 1960, 3 phase 20 hp pump, (220 GPM), 2 - 6' diameter X 3' open water tanks, portable generator, existing stock pond.

9. Estimated cost of works: \$20,000

10. Estimated time required to construct works: 1 year

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 1 year

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This existing underground source will provide water for 4000 head of sheep and 1000 head of cattle through out the year within the 30 Mile Spring Grazing Allotment.
