

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: RENO-TAHOE AIRPORT AUTHORITY
Source: UNDERGROUND
Basin: TRUCKEE MEADOWS
Manner of Use: MUNICIPAL
Period of Use: January 1st to December 31st
Priority Date: 10/22/1974

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 28821, Certificate 10824 is issued subject to the terms and conditions imposed in said Permit 28821, Certificate 10824 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping this well on other previously existing wells that are located within 2,500 feet of this well. Any pumping of water in this well may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of this well, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

(Continued on Page 2)

This permit is approved for the entire 277.72 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 236.06 acre-feet, can be diverted annually. Additional diversion up to the total 277.72 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 236.06 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.62 cubic feet per second, but not to exceed 277.72 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 11 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

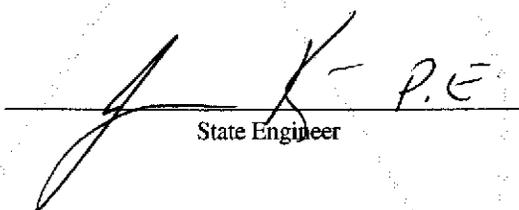

December 29 2020

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29th day of December, A.D. 2010

The applicant RENO-TAHOE AIRPORT AUTHORITY
P.O. Box 12490 of Reno
Street Address or PO Box City or Town
NV 89510 hereby make(s) application for permission to change the
State and ZIP Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

PERMIT 28821 CERTIFICATE 10824

1. The source of water is UNDERGROUND
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 1.62 CFS and 277.72 ACRE FEET ANNUALLY
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for MUNICIPAL
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for IRRIGATION (GOLF COURSE)
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
NW1/4 SE1/4 of Section 5, T.19N., R.20E., M.D.B.&M. or at a point from which the East one quarter corner of said Section 5 bears N. 65° 28' 59" E. a distance of 2,272.79 feet. See map supporting Application 75972 on file with the State Engineer.
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
SE1/4 NW1/4 of Section 20, T.19N., R.20E., M.D.B.&M. or at a point from which the East one quarter corner of said Section 20 bears S. 76° 56' 33" E. a distance of 2,960.35 feet. See Map supporting Application 28821 on file with the State Engineer.

87-1112

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)
See Exhibit "A" attached hereto and map supporting Application 69710 on file with the State Engineer

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)
See Exhibit "B" attached hereto and map supporting Application 28821 on file with the State Engineer.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from April 1 to November 30 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing cased well with motor, pump, meter and other related facilities.

12. Estimated cost of works Existing

13. Estimated time required to construct works Existing
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use ten years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Existing equipped well connected to existing municipal distribution systems providing water service to existing and future municipal water customers.
