

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: BARRICK GOLD US INC
Source: UNDERGROUND
Basin: NEWARK VALLEY
Manner of Use: IRRIGATION
Period of Use: January 1st to December 31st
Priority Date: 03/26/1997

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 62947 is issued subject to the terms and conditions imposed in said Permit 62947 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 80022 and 80024, having the same point of diversion and place of use, shall not exceed 2.226 cubic feet per second and 520.0 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permit 80022 is issued for the irrigation of a 130 acre pivot within the described place of use at 4.0 acre-feet per acre with the understanding that the base right Permit 62947 was originally issued for 3.0 acre-feet per acre.

The issuance of Permit 80022 simultaneously expires Temporary Permit 80020T.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.726 cubic feet per second or 520.0 acre-feet annually, and not to exceed 4.0 acre-feet per acre from any and all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 29 2011

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 29 2012

Map in support of proof of beneficial use shall be filed on or before:

December 29 2012
