

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: CITY OF NORTH LAS VEGAS
Source: UNDERGROUND
Basin: LAS VEGAS VALLEY
Manner of Use: MUNICIPAL
Period of Use: JANUARY 1ST TO DECEMBER 31ST
Priority Date: 03/22/1950

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 62145, Certificate 15321, is issued subject to the terms and conditions imposed in said Permit 62145, Certificate 15321 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The Permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping this well on other previously existing wells that are located within 2,500 feet of this well.

Any pumping of water in this well may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of this well, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

(Continued on Page 2)

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is issued for municipal purposes within the described place of use, with the parcel containing the wellhead (Elstner Estates No. 2 Well) identified by the Clark County Assessor as APN 138-12-710-002.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.50 cubic feet per second or 15.344 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 12 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

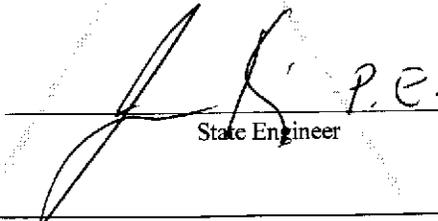

April 12 2014

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

The applicant City of North Las Vegas
2829 Fort Sumter of North Las Vegas
Street Address or PO Box City or Town
Nevada, 89030 hereby make(s) application for permission to change the
State and ZIP Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit No. 62145, Certificate No. 15321

1. The source of water is Underground - Las Vegas Valley Basin 212
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 0.50 cfs not to exceed 5.00 million gallons annually
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Municipal Purposes
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for Municipal Purposes
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
NW1/4 SE1/4 Section 12, T.20S., R.60E., M.D.B.&M., or at a point from which the NE corner of said Section 12 bears N.38 degrees 39' 19" E., a distance of 3,858.52 feet situated in Clark County, State of Nevada
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
NE1/4 NE1/4 Section 11, T.20S., R.61E., M.D.B.&M., or at a point from which the NE corner of said Section 11 bears N 6° 51' 49" E., a distance of 520.87 feet situated in Clark County, State of Nevada

212-66

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

See attached "Proposed Place of Use"

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

See attached "Existing Place of Use"

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing well with vertical turbine pump and electric motor, 1000' of 24" borehole with 990' of 16" casing, 100' of 26" conductor casing grouted in at surface, perforated interval from 640' to 970'.

12. Estimated cost of works \$300,000

13. Estimated time required to construct works Completed, see description above.

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 2 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The proposed point of diversion is an existing well that is part of the North Las Vegas Water Service District, which currently serves approximately 86,000 municipal customers. Consumptive use for the North Las Vegas Water Service District, including surface (Colorado River) water and groundwater, is approximately 55,000 acre-feet annually.
