

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: JACK WHITE
Source: UNDERGROUND
Basin: DAYTON VALLEY
Manner of Use: MUNICIPAL
Period of Use: January 1st to December 31st
Priority Date: 01/08/1963

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 74434 is issued subject to the terms and conditions imposed in said Permit 74434 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of ground water under Permits 49483, 49486, Certificate 14718; Permits 50361, 56593, Certificate 14706; Permit 58931, Certificate 14719; Permits 58932, 58933, Certificate 14720; Permits 58934, 62937, 62938, Certificate 15662; Permits 62939, 62940, 63626, 63628, 63630, 63632, 63633, 64128, 64957, 66427, 68155, 68156, 68196, 68197, 68198, 68708, 68737, 69243, 69244, 69245, Permit 70040, Certificate 17322; Permit 70041, Certificate 17323; Permit 70042, Certificate 17324; Permits 70693, 70846, 71379, 71476, 71477, 71536, 71537, 71688, 71856, 71857, 71872, 71873, 72603, 72773, 72774, 72775, 72914, 72931, 72932, 72933, 73157, 73158, 73183, 73393, 73394, 73473, 73474, 73490, 73491, 73992, 74283, 74284, 74285, 74286, 74369, 74370, 74427, 74562, 74569, 74612, 74922, 75101, 75102, 75103, 75104, 75157, 75159, 75160, 75277, 75366, 75367, 76525, 77110, 77136 and 77288, 77428, 77612, 77613, 77661, 77662, 78222, 80079 and 80080 shall not exceed 9,290.52 acre-feet annually.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping this well on other previously existing wells that are located within 2,500 feet of this well. Any pumping of water in this well may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of this well, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

This permit is approved for the entire 93.52 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 74.82 acre-feet, can be diverted annually. Additional diversion up to the total 93.52 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 74.82 acre-feet to be exceeded.

Monthly records shall be kept of the amount of water pumped from this well and all Dayton Utility wells and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter. Additionally, Lyon County shall file a report by February 15th of each year, in a format approved by the State Engineer, setting forth in detail all diversions of groundwater and surface water for the previous calendar year.

The approval of this permit is subject to State Engineer's Ruling #6094, dated February 16, 2011.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.623 cubic feet per second or 93.52 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 13, 2014

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

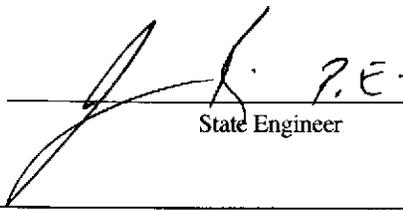

July 13, 2016

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 15th day of **March**, A.D. **2011**

State and ZIP Code

Point of diversion Place of use Manner of use of a portion *SNC E-mail 8/12/2010*

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit 74434

1. The source of water is underground.
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 93.5185 acre-feet (0.6231 cfs)
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for municipal purposes.
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for municipal purposes.
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
Within SW¼NW¼ Section 34, T. 17N., R. 22E., MDB&M, or at a point from which the NW Corner of said Section 34 bears N21° 45' 41" W. a distance of 1,903.12 feet.
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
SE¼SE¼ Section 24, T. 16N., R. 21E., MDB&M, or at a point from which the SE Corner of said Section 24 bears S40° 40' 46"E. a distance of 112.95 feet.
