PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: ORMAT NEVADA, INC
Source: TRUCKEE RIVER
Basin: TRUCKEE CANYON SEGMENT
Manner of Use: INDUSTRIAL
Period of Use: AS DECREED
Priority Date: AS DECREED

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of Permit 74627, which changed the point of diversion place and manner of use of a portion of the waters of the Truckee River as heretofore granted under Claims 127, 129, 153, 168 and 221/222, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and accurate measurements of water placed to beneficial use must be kept.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 3.57 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 2.75 acre-feet, can be diverted annually. Additional diversion up to the total 3.57 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 2.75 acre-feet to be exceeded.

This permit is subject to the continuing jurisdiction and regulation by the Federal Water Master and State Engineer.

Monthly records of water use must be kept and reported annually to the State Engineer and the Federal Water Master no later than February 15 of each year.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0125 cubic feet per second or 3.57 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 15 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

July 15 2016

Map in support of proof of beneficial use shall be filed on or before:
