

THE STATE OF NEVADA
PERMIT TO APPROPRIATE WATER

Name of Permittee: GLASER LAND AND LIVESTOCK CO
Source: UNDERGROUND
Basin: NORTH FORK AREA
Manner of Use: STOCKWATERING
Period of Use: JANUARY 1ST TO DECEMBER 31ST
Priority Date: 02/22/2011

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 44935, Certificate 11504; Permit 44936, Certificate 11505; Permit 46897, Certificate 11713; Permit 52500, Certificate 14593; Permit 68306, Certificate 17901; and Permit 80600 shall be sufficient to water 1000 head of cattle, but not to exceed 22.4 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0125 cubic feet per second or sufficient to water 400 head of cattle, and not to exceed 8.96 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

October 18 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

October 18 2016

Map in support of proof of beneficial use shall be filed on or before:

N/A

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office FEB 22 2011

Returned to applicant for correction _____

Corrected application filed _____ Map filed FEB 22 2011

The applicant Glaser Land and Livestock Co.

P.O. Box 325 of Halleck
Street Address Or P.O. Box City or Town

Nevada 89824 hereby make(s) application for permission to appropriate
State and Zip code No.

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)

Incorporated January 29, 1960 in Nevada

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources

2. The amount of water applied for is 0.0125 cfs second feet.
One second foot equals 448.83 gallons per minute.

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Stockwatering
Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated _____

(b) Stockwater, state number and kind of animals 400 cattle

(c) Other use (describe fully in No. 12) _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

JK-EL

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NE1/4 SE1/4 of Section 21, T.39 N., R.56 E., M.D.B. & M., at a point from which the Northwest corner of Section 28, T.39 N., R.55 E., M.D.B. & M. bears S 87° 49' 12" W, 34,582.60 feet.

6. Place of use (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

NE1/4 SE1/4 of Section 21, T.39 N., R.56 E., M.D.B. & M.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)

Drilled well, pump, motor, pipelines, storage tanks & stock troughs

9. Estimated cost of works: ± \$10,000

10. Estimated time required to construct works: well complete under Permits 80044T & 80045T
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

The well under this application was drilled by Ruby Pipeline, LLC under permits 80044T and 80045T for construction purposes. It is located on public lands on the applicants grazing allotment. The applicants have been in contact with Ruby Pipeline, LLC and the BLM and rather than Ruby Pipeline, LLC having to plug the well after construction has been completed they wish to utilize the well for stockwater purposes in conjunction with their grazing operation. The well will be equipped together with pipelines, storage tanks and stock troughs where 400 cattle will water within the proposed place of use.
