

TEMPORARY
THE STATE OF NEVADA

**PERMIT TO CHANGE THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of applicant: CORPORATION OF THE PRESIDING BISHOP OF THE
CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS

Source: UNDERGROUND

Basin: SPRING VALLEY

Manner of Use: COMMERCIAL

Period of Use: ONE YEAR FROM DATE OF ISSUANCE

Priority Date: 12/01/1989

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 54204 is issued subject to the terms and conditions imposed in said Permit 54204 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Temporary Permits 80601T and 80602T shall not exceed 35 acre-feet annually. The total combined duty of water under Permits 54204 and 54205 is reduced by 35.0 acre-feet annually.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 35.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

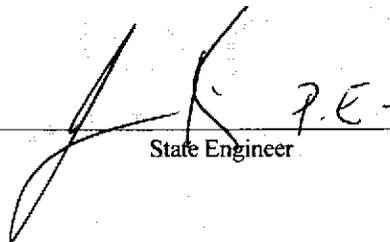

N/A

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 11th day of **April**, A.D. **2011**

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office FEB 22 2011

Returned to applicant for correction _____

Corrected application filed _____ Map filed **FEB 12 1990** under **54204**

The applicant Corporation of the Presiding Bishop of the Church of Jesus Christ of Latter-Day Saints, a Utah Corp. Sole
50 East North Temple, 12th Floor of Salt Lake City
Street Address or PO Box City or Town
Utah 84150 hereby make(s) application for permission to change the
State and ZIP Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)
Permit 54204

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 1cfs; Not to Exceed 35 AFA
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Commercial (Construction)
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for Irrigation
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
No Change
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
NW¼NE¼ of Section 19, T. 16N., R. 67E., M.D.M., or at a point from which the NW corner of said Section 19 bears N. 86° 52' W., a distance of 2,924.17 feet.

Please use map filed under Permit 54204 to support the Existing Point of Diversion.

187-417

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

See Attached Map and Legal Description

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Area to be stripped under this Temporary Application is the Northeastern 12 acres (723 feet by 723 feet) of the NE¼NE¼ Section 19, T. 16N., R. 67E., M.D.M.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Stand pipe system including a 30,000 gallon storage tank for filling water trucks to transport water to the areas as needed within the Place of Use.

12. Estimated cost of works \$50,000

13. Estimated time required to construct works 6 Months

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Unknown

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

See Attachment

16. Miscellaneous remarks:

Water is to be used for construction related uses including concrete batching, dust control, and roadway and foundation compaction.

Item #15 Attachment

Water is to be used for development of the Spring Valley Wind Energy Facility (Facility) as proposed by Spring Valley Wind LLC and approved by the Bureau of Land Management's Schell Field Office by Decision Record DOI-BLM-NV-L020-2010-0007-EA. The Facility will include 75 tubular conical steel turbines spaced across 7,673 acres, a MET tower, two substations (Spring Valley and Osceola), an operations and maintenance building, fiber-optic lines, an underground power collection system and tie into an existing 230-kV power line. Temporary construction facilities will include gravel pits, a concrete batch plant, temporary parking, material staging and storage areas, turbine laydown areas and crane pads, and a series of access roads (existing roads will be utilized to the extent practical). Areas disturbed during construction, but not permanently occupied by Facility structures will be restored per BLM specifications.
