

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: ROBERT R. AND DEBRA M. DEPAOLI
Source: UNDERGROUND
Basin: HIGH ROCK LAKE VALLEY
Manner of Use: IRRIGATION
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 02/23/2011

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A portion of the water under Permit 80604 is supplemental to water of North Willow Creek under Permit 3206, Certificate 1033 and Permit 6807, Certificate 1150. These permits are limited to the irrigation of 250 acres within the described place of use.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 3.0 cubic feet per second or 1000.0 acre-feet annually from any and all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

March 29 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

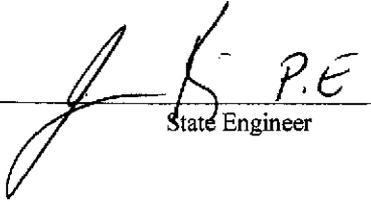

March 29 2017

Map in support of proof of beneficial use shall be filed on or before:

March 29 2017

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29th day of March, A.D. 2012

State Engineer

Completion of work filed _____

Proof of beneficial use filed _____

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>FEB 23 2011</u>
Returned to applicant for correction	_____
Corrected Application filed	Map filed <u>FEB 23 2011</u>

The applicant Robert R. Depaoli and Debra M. Depaoli
1415 Arobia Lane of Lovelock
Street Address or P.O. Box City or Town
Nevada 89419 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

-
- The source of water is Underground
Name of the stream, lake, underground, spring or other sources.
 - The amount of water applied for is 3 cfs, not to exceed 1000 acre-feet annually
One second foot equals 448.83 gallons per minute.
 - If stored in a reservoir give the number of acre-feet _____
 - The water is to be used for Irrigation
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
 - If use is for:
 - Irrigation, state number of acres to be irrigated 250 acres
 - Stockwater, state number and kind of animals _____
 - Other use (describe fully in No. 12) _____
 - Power:
 - Horsepower developed _____
 - Point of return of water to stream _____

25-200

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SE 1/4 SE 1/4, Section 34, T.38N., R. 23E., M.D.B. & M., or at a point from which the SE Corner of said Section 34, bears S. 72° 51' 51" E., a distance of 500 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

S 1/2 S 1/2, Section 34, SW 1/4 SW 1/4, Section 35, T.38N., R.23E., M.D.B. & M.; N 1/2 N 1/2, Section 3, NW 1/4 NW 1/4, Section 2, T.37N., R.23E., M.D.B. & M. Place of use to be limited to 250 acres within the above described subdivisions.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

A drilled and cased well equipped with a motor, pump, meter and distribution system

9. Estimated cost of works: \$50,000.00

10. Estimated time required to construct works: Three (3) years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five (5) years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application is being filed to appropriate groundwater for irrigation on Applicants' deeded ground. Portions of the water appropriated under this application will supplement existing certificated surface water rights and portions will irrigate new land.

13. Miscellaneous remarks:

The proposed point of diversion and place of use is located in Hydrographic Basin 25 (High Rock Lake Valley).
