**ATTACHMENT TO TEMPORARY APPLICATIONS TO CHANGE TRUCKEE RIVER  
DECREE CLAIM 607**

Item 5. The water is to be diverted at two (2) separate locations described as follows:

- (1) The NW1/4NE1/4 Section 34, T.20N., R.22E., MDM, or at a point from the SW corner of Section 27, T.20N., R.22E., MDM bears N. 87 09'W., a distance of 3,848 feet.
- (2) The NW1/4NW1/4 Section 35, T.20N., R.22E., MDM, or at a point from the SW corner of Section 27, T.20N., R.22E., MDM bears N. 87 07'W., a distance of 5,888 feet.

Item 15. Proposed Project Description

This application is filed to temporarily change a portion of Truckee River Decree Claim 607, proposed to be diverted from two separate points of diversion on the Truckee River channel. The change is proposed to provide water for the irrigation of approximately 52.6 acres of riparian area to be extensively planted with trees, shrubs and grasses for restoration of native vegetation. As described by the supporting map, both diversion points will be located on the north bank of the river channel for irrigation of a single contiguous area.

Water will be delivered and applied to the project site by installation of temporary pumps in the Truckee River channel and through surface-laid distribution pipelines with sprinkler systems.

The projected water use total from the two diversions will not exceed 67 acre-feet as allowed under Claim 607, for irrigation demand during the period allowed under provisions of the Truckee River Decree.

This represents a part of The Nature Conservancy's continuing restoration efforts at the 102 Ranch project site, and to assist in the improvement of water quality in the Truckee River. This project is a cooperative effort of The Nature Conservancy, the City of Reno, and the University of Nevada, Reno. The water rights under Claim 607, which are the subject of this application, are a portion of the total of 350 acre-feet under Truckee River Claims 601 and 607 allowed under lease by The Nature Conservancy for Truckee River restoration projects.
