#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the 4.0 cubic feet per second, herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 5234, Certificate 1093; Permits 77712 and 80760 shall not exceed 240 acre-feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 4.0 cubic feet per second or 195.84 acre-feet annually for the irrigation of 65.28 acres from any and all sources.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

August 17 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

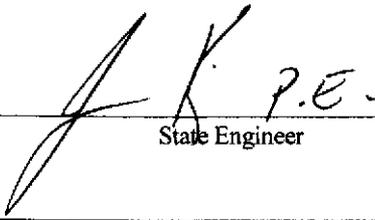

August 17 2016

Map in support of proof of beneficial use shall be filed on or before:

August 17 2016

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,
