

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: ERIK M. TAYLOR AND KRISTINE W. TAYLOR
Source: UNDERGROUND
Basin: CLOVERS AREA
Manner of Use: IRRIGATION
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 06/09/2011

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is issued for diversion only. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 27129, Certificate 8111, Permit 31144, Certificate 12056, and Permits 59675 and 80896 shall not exceed 1069.6 acre-feet annually for the irrigation of 267.4 acres.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.07 cubic feet per second or 361.32 acre-feet annually, but not to exceed 4.0 acre-feet per acre from all sources.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 12, 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

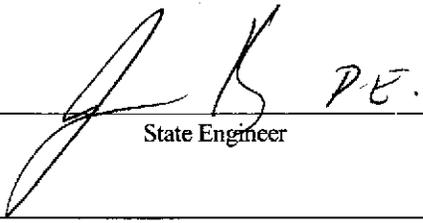

May 12, 2015

Map in support of proof of beneficial use shall be filed on or before:

May 12, 2015

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 28th day of February, A.D. 2012

State Engineer

Completion of work filed _____

Proof of beneficial use filed _____

Cultural map filed _____

Certificate No. _____ Issued _____

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office JUN 09 2011

Returned to applicant for correction _____

Corrected application filed _____ Map filed MAY 09 1994 under 59675

The applicant Erik M. Taylor and Kristine W. Taylor

HC 61 Box 20 of Battle Mountain
Street Address Or P.O. Box City or Town

Nevada, 89820 hereby make(s) application for permission to appropriate
State and Zip code No.

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources

2. The amount of water applied for is 2.07 cfs 361.32 acre feet annually second feet.
One second foot equals 448.83 gallons per minute.

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Irrigation
Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated 90.33 acres

(b) Stockwater, state number and kind of animals _____

(c) Other use (describe fully in No. 12) _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

GA-LD

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NE1/4 SW1/4 of Section 16, T.34 N., R.45 E., M.D.B. & M., at a point from which the
South 1/4 Corner of said Section 16, bears S 15° 22' 00" E, 2649.50 feet.

6. Place of use (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

Portions of the NW1/4 SW1/4, SW1/4 SW1/4 and the SE1/4 SW1/4 of Section 16, T.34 N.,
R.45 E., M.D.B. & M.

7. Use will begin about January 1st and end about December 31st of each year.
Month and Day Month and Day

8. Description of proposed works (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)

Drilled well, pipelines and sprinklers.

9. Estimated cost of works: \$10,000

10. Estimated time required to construct works: well is complete under Permit 59675
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

The waters applied for under this application are for additional diversion rate only. No additional
acreage or duty will be added by this application. The lands within the SW1/4 of Section 16,
T.34 N., R.45 E., M.D.B. & M. are currently irrigated under permits 27129 and 59675. The well
under permit 27129 which is certificated to irrigate lands in the NW1/4 SW1/4, SW1/4 SW1/4, &
SE1/4 SW1/4 of said Section 16 has decreased in production and is no longer capable of
producing sufficient amounts of water to irrigate said lands. Whereas (continued under item 13)

13. Miscellaneous remarks:

the well under permit 59675 which is permitted to irrigate lands in the NE1/4 SW1/4 of said
Section 16 has been recently refurbished and will produce substantially more water than the 0.43
cfs permitted. This application is being filed in order to allow the applicant the flexibility of
utilizing both the well under Permit 27129 and the newly refurbished well under Permit 59675 to
irrigate the lands within the said SW1/4 of Section 16 with no additional acreage or duty added.
The waters under this application and permit 27129 will be commingled for the irrigation of 90.33
acres within the place of use with a duty not to exceed 361.32 acre feet annually.
