

## THE STATE OF NEVADA

### PERMIT TO APPROPRIATE WATER

**Name of Permittee:** JOHN UHALDE & COMPANY  
**Source:** UNDERGROUND  
**Basin:** JAKES VALLEY  
**Manner of Use:** CONSTRUCTION  
**Period of Use:** JANUARY 1ST THROUGH DECEMBER 31ST  
**Priority Date:** 08/10/2011

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued solely for construction and related purposes for the SWIP Transmission Line and will expire upon completion of the power line project, as provided in NRS 533.045. The permittee shall notify the State Engineer within thirty (30) days of project completion that the diversion of water from this location for this segment of power line construction is no longer necessary and the State Engineer will cancel the permit.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.75 cubic feet per second or 19.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 19 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

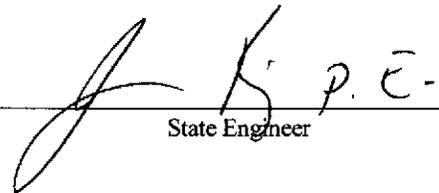

April 19 2014

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 19th day of **April, 2012**

### APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>AUG 10 2011</u>
Returned to applicant for correction	<u>AUG 17 2011</u>
Corrected Application filed	<u>OCT 14 2011</u>
Map filed	<u>OCT 14 2011</u>

The applicant John Uhalde & Company  
 PO Box 151088 of Ely  
Street Address or P.O. Box City or Town  
Nevada 89315 hereby make(s) application for permission to appropriate the  
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

Domestic Corporation: 12/16/1983 Ely, Nevada  
Officers: Gracian N Uhalde: President  
Helen D Uhalde: Secretary  
John P Uhalde: Director  
Michael A Uhalde: Treasurer

1. The source of water is Underground  
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.75cfs not to exceed 100 AFA  
One second foot equals 448.83 gallons per minute.
  - (a) If stored in a reservoir give the number of acre-feet 10,000 gallon tank and approximate 20,000 gallon pond
3. The water is to be used for Construction  
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
  - (a) Irrigation, state number of acres to be irrigated N/A
  - (b) Stockwater, state number and kind of animals N/A
  - (c) Other use (describe fully in No. 12) N/A
  - (d) Power:
    - (1) Horsepower developed N/A
    - (2) Point of return of water to stream N/A

*REL per e-mail*

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SE1/4SE1/4 Section 13, T18NR60E MDM or at a point from which the East 1/4 corner Section 13 bears N35°40'08"E 1,797.88 FT.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

SWIP Transmission Corridor, see additional sheet for legal subdivision description of corridor.

7. Use will begin about January 1 and end about December 31 of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Existing 6" well, 25K w generator, 3" submersible pump, 10,000 gallon storage tank, 20,000 gallon reservoir pond. Facility is equipped to load water trucks for delivery throughout Transmission line construction corridor.

9. Estimated cost of works: \$28,000 previously expended for loading water trucks and stock water use.

10. Estimated time required to construct works: Constructed and completed  
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: No time required, ready for use

*4 years  
REL  
per  
phone*

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This existing underground source will provide water for Construction Purposes along the SWIP Transmission Corridor through out the Project construction phase with additional water for construction of Substations within the corridor.

13. Miscellaneous remarks:

Construction is anticipated to begin immediately and continue for approximately four (4) years. The water will be used for dust abatement, compaction and aggregate washing.
