#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 78855 is issued subject to the terms and conditions imposed in said Permit 78855 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is supplemental to 200 acres under Permit 7123, Certificate 1781; Permit 7124, Certificate 1782; and Permit 7139, Certificate 1783; which are surface water rights. The groundwater cannot be used on these 200 acres except to the extent that the surface water is not available. This permit is limited to the irrigation of 250 acres within the described place of use.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 3.0 cubic feet per second or 1000.0 acre-feet annually and not to exceed 4.0 acre-feet per acre from any and all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 29 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 29 2015

Map in support of proof of beneficial use shall be filed on or before:

December 29 2015

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,
