

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: NYE COUNTY
Source: UNDERGROUND
Basin: AMARGOSA DESERT
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 08/16/1961

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 69313 is issued subject to the terms and conditions imposed in said Permit 69313 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 81265 and 81266 shall not exceed 80 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.24 cubic feet per second or 37.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

March 21 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

March 21 2016

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 21st day of March, A.D. 2012

 STATE ENGINEER'S OFFICE

- The source of water is Underground
Name of stream, lake, underground, spring or other sources.
- The amount of water to be changed 0.24 CFS 37 AFA
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
- The water to be used for QM
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
- The water heretofore used for QM
If for stock, state number and kind of animals.
- The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
Within the SE 1/4 SE 1/4 of Section 12, T15S, R49E, MDB&M, or at a point from which the SE corner of said Section 12 bears S 63° 13' 51" E a distance of 786.25 feet.
- The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
Within the SE 1/4 SE 1/4 of Section 18, T15S, R50E, MDB&M, or at a point from which the SE corner of said Section 18 bears S 02° 38' 23" E a distance of 1160 feet.

230-114

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

All of Basin 230 as depicted on maps on file with the Division of Water Resources

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Within the SE 1/4 SE 1/4 of section 18, the E 1/2 E 1/2 of the SW 1/4 SE 1/4 of Section 18 and that portion of the NE 1/4 of Section 19 lying northerly from the US Highway 95, all within T15S, R50E MDB&M (\$2.68 total acres)

9. Proposed use will be from Jan 1st to Dec. 31st of each year.
Month and Day Month and Day

10. Existing use permitted from Jan 1st to Dec. 31st of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

A drilled cased well with a 30 hp pump, well house, totalizer, pipe distribution system, two water storage tanks, a water loadout and a booster pump feeding further water distribution piping at the Amargosa Valley Science and Technology Park.

12. Estimated cost of works \$3,000,000

13. Estimated time required to construct works 5 years
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 to 10 years

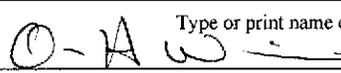

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The water will be used in support of the Amargosa Valley Science and Technology Park being developed by Nye County and is located near Lathrop Wells just north of US 95. The total number of users and number of buildings the water will serve is unknown at this time. The water will also be used for road maintenance, construction, dust control and all other ancillary uses.
