

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: DRY LAKE WATER, LLC
Source: UNDERGROUND
Basin: GARNET VALLEY
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 08/25/2000

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion of the waters of an underground source as heretofore granted under Permit 74064, is issued subject to the terms and conditions imposed in said Permit 74064 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 72098, 79948 and 81344, having the same point of diversion, shall not exceed 51.16 acre-feet annually.

The total combined duty of water under Permits 66784, 66785, 77389, and 77948, being fully supplemental, shall not exceed 156.82 acre-feet annually.

The total combined duty of water under Permits 66784, 66785, 72098, 77389, 77948 and 81344, having the same place of use, shall not exceed 178.0 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is issued for Quasi-Municipal purposes within the described place of use with the well located on Clark County Assessor's Parcel APN 103-13-010-014.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.06 cubic feet per second or 8.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

Filed Under 72098 on April 30, 2010

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

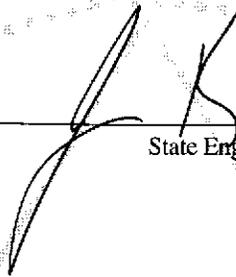

March 27 2016

Map in support of proof of beneficial use shall be filed on or before:
