14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

New production wells are being proposed to provide water through existing ditch and irrigation systems to existing fields known as the Hunewill Ranch. Changes to the cultivated area are anticipated based on improvements to existing fields, irrigation systems and their configurations; therefore, the place of use is being changed to accommodate these improvements. The water under this application to change will remain supplemental to the same Walker River decreed claims and Walker River Irrigation District Newland storage permits as the base permit (Permit No. 66303).

16. Miscellaneous remarks:

The well at the existing point of diversion will be plugged in accordance with the Nevada Administrative Code. The period of use is being changed to be consistent with other water rights within this same point of diversion. Refer to attachment for more information.
