

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: JOHN UHALDE & COMPANY
Source: MURPHY GAP WELL (UNDERGROUND)
Basin: COAL VALLEY
Manner of Use: STOCKWATERING
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 12/19/2011

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.031 cubic feet per second, sufficient to water 5,000 sheep, but not to exceed 22.4 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 19 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

April 19 2015
N/A

Map in support of proof of beneficial use shall be filed on or before:

 STATE ENGINEER'S OFFICE

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NW1/4NW1/4 of Section 12, T.2S.R.58E.MDM or at a point from which the South East corner of Section 12 bears S.43°24'17"E. 5913.15 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

See Exhibit A

7. Use will begin about January 1 and end about December 31 of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Existing 6" Well. 8 hp Portable Generator. pump. 6,000 Gallon water tank. water troughs.

9. Estimated cost of works: \$15,000

10. Estimated time required to construct works: 3 years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 3 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This existing underground source will provide water for 5,000 head of sheep through out the year within a portion of the Murphy Gap Grazing Allotment and South Coal Valley Grazing Allotment. John Uhalde & Company has been utilizing this water source for stock water since the early 1960s. Water is utilized in both permanent and portable troughs throughout the grazing allotments.
