

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: BONNIE WAHL
Source: UNDERGROUND
Basin: AMARGOSA DESERT
Manner of Use: IRRIGATION AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 01/25/2012

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The Permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 20162, Certificate 6236 and Permit 81510 shall not exceed 120 ace-feet annually for the irrigation of 30 acres.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.9 cubic feet per second or 120 acre-feet annually, but not to exceed 4.0 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 18 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

September 18 2015

Map in support of proof of beneficial use shall be filed on or before:

September 18 2015

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 18th day of September, 2012

J. King, P.E.

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>JAN 25 2012</u>
Returned to applicant for correction	_____
Corrected Application filed	_____ Map filed <u>JAN 25 2012</u>

The applicant Bonnie Wahl
 P.O. Box 1797 _____ of Paso Robles _____
Street Address or P.O. Box City or Town

California, 93446 _____ hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of water is underground
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.90 cfs (diversion rate only)
One second foot equals 448.83 gallons per minute.
 - (a) If stored in a reservoir give the number of acre-feet _____
3. The water is to be used for irrigation and domestic purposes
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated 30 acres
 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

 STATE ENGINEER'S OFFICE

Revised 07/09

230-114

Exhibit A

This application is being filed only to increase the rate of diversion of water that may be developed under permit 20162, certificate of appropriation 6236.

In the last several years, the well pursuant to permit 20162 was deepened. The results were that an insufficient volume of water was produced, meaning it was not adequate to serve the place of use. Permittee thereupon decided to drill a replacement well, within approximately 200 feet of the well drilled pursuant to certificated permit 20162. The new well, the subject of this application is similarly insufficient to develop the certificated volume of water. However, the well the subject of this application to appropriate a rate of diversion only, together with existing permit 20162, used together, will produce an adequate rate of diversion. The well the subject of this application therefore seeks only a rate of diversion and not additional volumes of water.
