

# THE STATE OF NEVADA

## PERMIT TO APPROPRIATE WATER

Name of Permittee: **ROCKVIEW DAIRIES, INC.**  
Source: **EFFLUENT (OUTFALL FROM PONDEROSA DAIRY)**  
Basin: **AMARGOSA DESERT**  
Manner of Use: **IRRIGATION**  
Period of Use: **JANUARY 1ST THROUGH DECEMBER 31ST**  
Priority Date: **04/09/2012**

\*\*\*\*\*

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The source of water appropriated under this permit is strictly limited to effluent produced by commercial use of water already appropriated. This effluent permit is issued subject to all existing rights on the source. It is understood that the water right herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. All effluent appropriated under this permit must be measured through a totalizing meter placed at a location which will accurately record the amount of this effluent utilized for irrigation within the permitted place of use. Monthly records of effluent used shall be submitted to the State Engineer on an annual basis by February 15 of each year. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not guarantee the continuous use or availability of water since the source is effluent.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 81744, 81745 and 81746 shall not exceed 1,120 acre feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.23 cubic feet per second or 1,120 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 29 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 29 2017

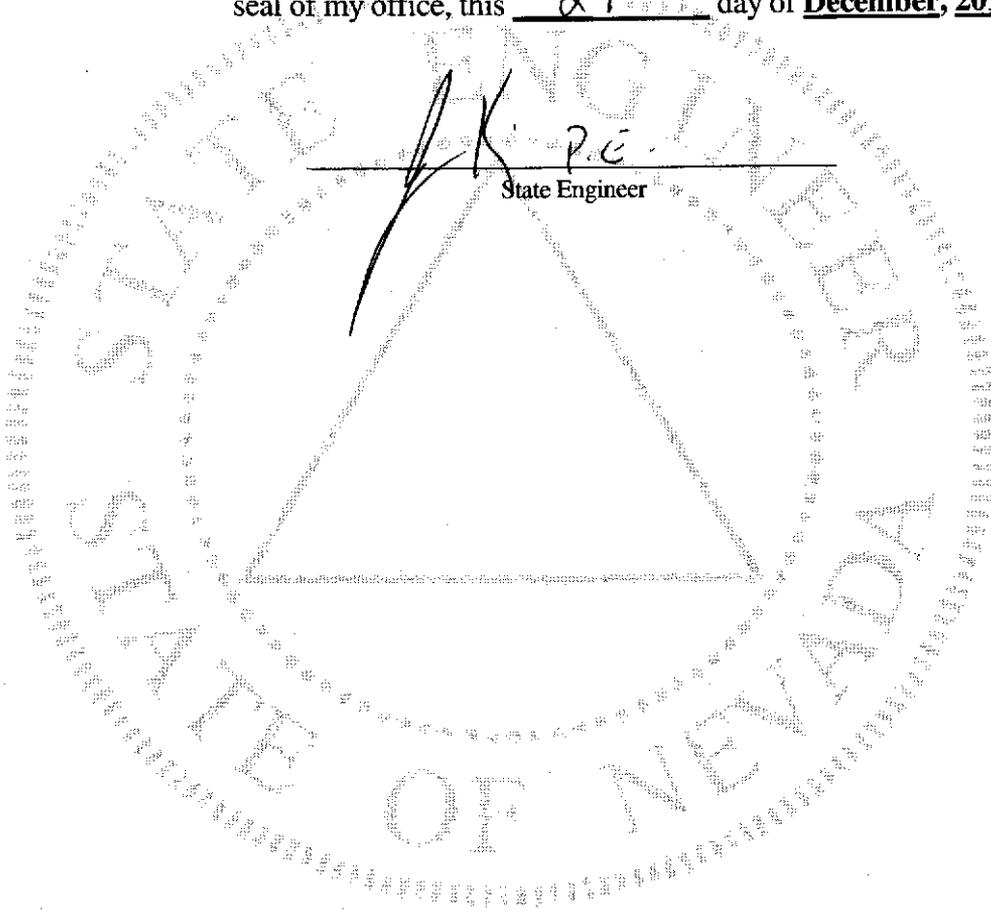

Map in support of proof of beneficial use shall be filed on or before:

December 29 2017

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29<sup>th</sup> day of December, 2014

  
\_\_\_\_\_  
State Engineer

**APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>APR 09 2012</u>
Returned to applicant for correction	_____
Corrected Application filed	_____ Map Filed <u>MAY 14 2012</u> under <u>81744</u>

The applicant Rockview Dairies, Inc.  
 PO Box 70 \_\_\_\_\_ of Amargosa Valley  
Street Address or P.O. Box City or Town  
NV 89020 \_\_\_\_\_ hereby make(s) application for permission to appropriate the  
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)  
State of California on March 28, 1968

2012 APR -9 PM 1:21

- The source of water is Effluent - the outfall from the Ponderosa Dairy operation  
Name of the stream, lake, underground, spring or other sources.
- The amount of water applied for is 1120 afa or 2.23 cfs  
One second foot equals 448.83 gallons per minute.  
 (a) If stored in a reservoir give the number of acre-feet ~150 af (including upstream lagoons)
- The water is to be used for Irrigation  
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
- If use is for:
  - Irrigation, state number of acres to be irrigated not to exceed 1920 ac
  - Stockwater, state number and kind of animals \_\_\_\_\_
  - Other use (describe fully in No. 12) \_\_\_\_\_
  - Power:
    - Horsepower developed \_\_\_\_\_
    - Point of return of water to stream \_\_\_\_\_

230-114

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Barn 3 lagoon 2: NE 1/4, SW 1/4, Section 9, T17S, R49E, M.D.M. or at a point from which SW corner of said section 9 bears south 41°58'55" west at a distance of 3334.83 feet.

REV

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

E1/2 of Section 4, all of Section 9, all of Section 10, NW1/4, N1/2 SW1/4, SW1/4 SW1/4, NW1/4 SE1/4 of Section 15, T17S, R49E, M.D.M; not to exceed 1920 acres

7. Use will begin about January 1 and end about December 31 of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Works are completed

9. Estimated cost of works: N/A. Works are completed

10. Estimated time required to construct works: N/A  
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 4 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

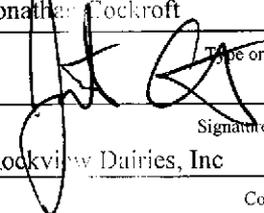

Ponderosa Dairy uses a portion of the water pumped under its commercial permits to clean the milking parlors and equipment. This effluent (green water) is then transferred to storage lagoons and land-applied to fields on the property regulated under NDEP Discharge Permit NV0023027. This application seeks to permit the barn 3 effluent for irrigation on all lands within the dairy.

13. Miscellaneous remarks:

This and the two accompanying effluent applications seek to permit the lagoons associated with the three barns as POD. All three effluent permits are intended to be supplemental to each other for a combined total of 1120 afa effluent. No additional groundwater will be diverted under these applications.
