PERMIT TO APPROPRIATE WATER

Name of Permittee: COLD CREEK CANYON HOMEOWNERS ASSOC.
Source: UNDERGROUND
Basin: INDIAN SPRINGS VALLEY
Manner of Use: QUASI-MUNICIPAL AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/19/2012

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. The State retains the right to regulate the use of the water granted herein at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 29731, Certificate 10904; Permit 36526 and Permit 81799 shall not exceed 227.41 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 222.9 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 6 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

May 6 2019

Map in support of proof of beneficial use shall be filed on or before:

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The water system facilities have been completed including 2 wells, two well houses, generators, a 200,000 gallon storage tank, supply and distribution lines. Currently there are 90 lots being served with 117 lots undeveloped, totaling 207 lots in the Cold Creek Canyon community.

13. Miscellaneous remarks:

This application is not for more water but to be able to divert water from both sources not to exceed 74,100,000 gallons annually or 227.41 acre-feet. This would allow water to be drawn out of either well. Total duty of this application and Permit 29731, Certificate 10904 is intended to be equal to Permit 36526.
