THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: MICA FARMS, LLC
Source: UNDERGROUND
Basin: MASON VALLEY
Manner of Use: IRRIGATION AND DOMESTIC
Period of Use: ONE YEAR FROM DATE OF ISSUANCE
Priority Date: 07/29/1960

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 74228 is issued subject to the terms and conditions imposed in said Permit 74228 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 18654, Certificate 5274; Permits 65384, 67210, 67599; a portion of Permit 68312, Permits 72131, 72402, 81847T, 81848T, 81849T, 81850T, 81851T, 81852T and 81853T and the Mica Farms owned portions of Permit 56594, Certificate 14202 (23.004AF); Permit 56595, Certificate 14203 (38.181AF); Permit 56596, Certificate 14204 (92.790AF); Permit 56597, Certificate 14205 (23.893AF); Permit 56598, Certificate 14206 (119.469AF); and Permit 56599, Certificate 14207 (34.662AF); shall not exceed 2779.89 acre-feet annually for the irrigation of 726.23 acres.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(Continued on Page 2)

The total combined duty of water under Temporary Permits 81847T and 81848T and any water from the Walker River Decree C-125 and any storage water appurtenant to the place of use shall not exceed 320 acre-feet per annually for the irrigation of 80 acres within the described place of use.

This temporary permit for underground water is issued as a supplemental water supply to land that has surface water. The underground water is to be used to the extent that surface water is not available. The permit holder is responsible for insuring delivery of the surface water from entitled decreed, flood and storage rights that these permits supplement. In any year that the Federal Water Master and the Walker River Irrigation District declare a full allocation of decreed and decree supplemental storage water to the priority years of C-125 claims that this permit supplements, underground water under this permit shall not be pumped. Additionally, underground water under this permit shall only be pumped from the well described in this permit to supplement the total allocation of Walker River Irrigation District's "newlands" storage water.

This temporary permit for underground water is issued as a supplemental water supply to that land that has surface water rights from the Walker River from Claim Number 45 (Fox Ditch Company, p. 25), Claim Number 63 (Greenwood Ditch Company, p. 28), Claim Number 84 (Lomori, Fred, Successor to Mrs. S.A. Robinson and Mary Meagher, p. 32), Claim Number 101 (Mickey Ditch Company, p. 34), Claim Number 106 (McGowan, W.R., Successor to Louise McGowan and Roy McGowan, p. 35), Claim Number 108 (McGowan, W.R., Successor to Louise McGowan and Roy McGowan, p. 36), Claim Number 164 (Wise Hester, Estate of, p. 46) of the Walker River Decree C-125, Permit 25017, Certificate 8860, and from storage water provided by the Walker River Irrigation District. Irrigation shall not exceed a duty of four (4) acre-feet per acre per season from the total of decreed, storage, flood and underground waters.

The permitting of Temporary Permits 81847T and 81848T reduces the total combined duty of Permits 74228, 75048 and 77719 to 192.59 acre-feet annually for the irrigation of 48.15 acres.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.5 cubic feet per second or 320.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:
