

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: JASON CORPORATION
Source: UNDERGROUND
Basin: MASON VALLEY
Manner of Use: QUASI-MUNICIPAL AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/18/1960

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 75610 is issued subject to the terms and conditions imposed in said Permit 75610 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The issuance of Permit 81941 reduces the total combined duty of Permits 75610, 75611 and 76234 to 81.31 acre-feet annually.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0099 cubic feet per second or 2.69 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 26 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

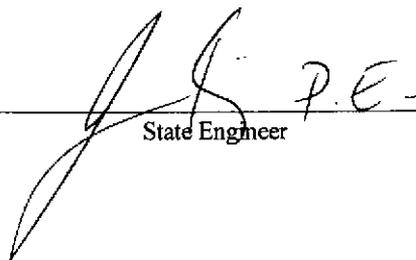

December 26 2014

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 26th day of December, 2012

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office JUN 01 2012

Returned to applicant for correction _____

Corrected application filed _____ Map filed JUN 01 2012

The applicant Jason Corporation c/o Peri & Sons Farms
Post Office Box 35 of Yerington
Street Address or PO Box City or Town
Nevada 89447 hereby make(s) application for permission to change the
State and ZIP Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)
Permit No. 75610

1. The source of water is Underground Sources
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 2.69 acre feet per annum - pro rata share of the diversion rate (0.0099 cfs) KWC
6/4/12
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Quasi-Municipal and Domestic
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for Quasi-Municipal and Domestic
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
within NE1/4 SW1/4 Section 31 T13N, R26E, MDM or at a point from which the SW corner of Section 36 T13N, R25E, MDM bears South 71 degrees 46 minutes 03 seconds West, a distance of 7,048.51 feet
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
within SW1/4 SW1/4 Section 36 T13N, R25E, MDM or at a point from which the SW corner of said Section 36 bears South 82 degrees 42 minutes 47 seconds West, a distance of 1,256.00 feet. Refer to map under Permit 75610.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Portions of the NE1/4 SW1/4 and NW1/4 SE1/4 of Section 31 T13N, R26E, MDM

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Portions of the SW1/4 SW1/4 of Section 36 T13N, R25E, MDM. Refer to map under Permit No. 75610.

9. Proposed use will be from January 1st to December 31st of each year.
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing drilled and cased well, equipped with submersible motor/ pump, totalizing meter and pipeline to place of use

12. Estimated cost of works None - Existing works

13. Estimated time required to construct works None - Existing works

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 2 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The proposed point of diversion is an existing well and facilities serving 8 residential mobile homes within the proposed place of use. The daily average consumption of water is estimated to be less than 300 gallons per day per unit. The total requested annual volume of water anticipated to serve the 8 residential mobile homes is 8 times 300 gallons per day times 365 days per year divided by 325.851 gallons per acre foot equalling 2.69 acre feet per annum.
