

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: BARRICK GOLD US, INC
Source: UNDERGROUND (JDW-1)
Basin: PINE VALLEY
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 10/04/2012

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.5 cubic feet per second or 150.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 13 2014

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

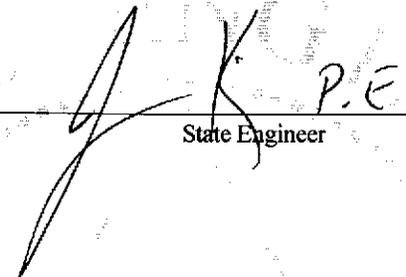

September 13 2018

Map in support of proof of beneficial use shall be filed on or before:

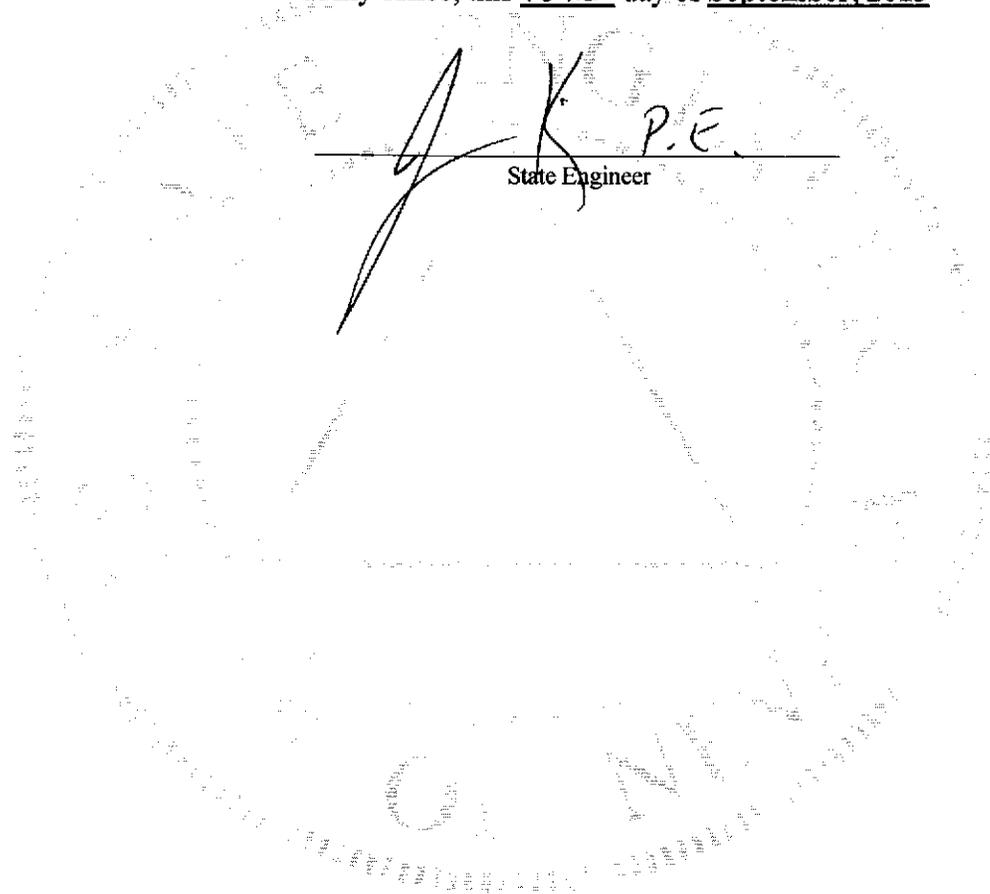

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 13th day of September, 2013

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

| THIS SPACE FOR OFFICE USE ONLY | |
| Date of Filing in State Engineer's Office | <u>OCT 04 2012</u> |
| Returned to applicant for correction | _____ |
| Corrected Application filed | _____ Map filed <u>OCT 4 2012 UNDER 82167T</u> |

The applicant BARRICK GOLD U.S., INC., A CALIFORNIA CORPORATION
460 West 50 North, Suite 500 of Salt Lake City
Street Address or P.O. Box City or Town
Utah 84101 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)
Incorporated 11/16/1953 in Los Angeles, California under Entity Number C0280155.

1. The source of water is Underground - Well JDW-1
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.5 c.f.s., not to exceed 150.0 A.F.A.
One second foot equals 448.83 gallons per minute.
 - (a) If stored in a reservoir give the number of acre-feet _____
3. The water is to be used for Quasi-municipal purposes
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated _____
 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) Quasi-municipal purposes
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

53-EL

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

within the SW¼SW¼ Section 30, T. 26N., R. 51E., M.D.M., or at a point from which the S¼ Corner of Section 35, T.26N., R. 51E., bears S. 76° 57' 40" E., a distance of 24,082 feet. (Well JDW-1)

Please refer to accompanying map.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

within the SW¼ and W¼SW¼SE¼ Section 30; E¼NW¼, NW¼NE¼, and W¼SW¼NE¼ Section 31; all in T. 26N., R. 51E., M.D.M.

Please refer to accompanying supporting map.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled well, pump, motor, storage tank and water distribution system.

9. Estimated cost of works: In Excess of \$100,000

10. Estimated time required to construct works: 1 year

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Water under this Application will be used for a mining man camp. The camp is planned to start with 320 people and may house as many as 1,000 people when the mine is developed. Water will be used for camp construction, dust suppression, landscaping, and camp related uses.
