

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: WOODIE BELL
Source: UNDERGROUND
Basin: LOVELOCK VALLEY
Manner of Use: STOCKWATERING
Period of Use: NOVEMBER 1ST THROUGH MAY 1ST
Priority Date: 10/29/2012

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

The total combined duty of water under Permit 51212, Certificate 12974, Permits 80633 and 82239 shall not exceed an amount sufficient to water 345 head of cattle and 35 wild horses, but not to exceed 8.51 acre-feet annually.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.013 cubic feet per second and 7.73 acre-feet per season, or sufficient to water 345 head of cattle.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 27 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

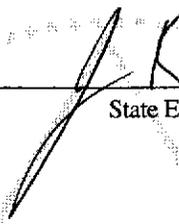

May 27 2018

Map in support of proof of beneficial use shall be filed on or before:
