**Manner of Use:** STOCKWATERING  
**Period of Use:** JANUARY 1ST THROUGH DECEMBER 31ST  
**Priority Date:** 10/29/2012

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 66260, Certificate 16663, Permits 82241, 82242 and V06821 shall not exceed 17.92 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0248 cubic feet per second, sufficient to water 800 head of cattle, but not to exceed 17.92 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 6 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

May 6 2016

Map in support of proof of beneficial use shall be filed on or before:

May 6 2016

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 6th day of May, 2013

  
\_\_\_\_\_  
State Engineer

Application No. 82242

    - Power:
      - Horsepower developed \_\_\_\_\_
      - Point of return of water to stream \_\_\_\_\_

69-HU

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)  
(sub w)  
within the Lot 2 of Section 7, T.41N., R.40E., M.D.B.&M., or at a point from which the NW corner of said Section 7 bears N7° 44' W 2519.00.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)  
Lot 2 Section 7, T.41N., R.40E., M.D.B.&M.

7. Use will begin about January 1st and end about December 31st of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

A drilled well, submersible pump and water trough.

9. Estimated cost of works: \$10,000.00±

10. Estimated time required to construct works: 2 years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 1 year

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The applicant like to able to water 800 head of cattle from this well, an existing well in Section 6 (application being filed in conjunction with this application) and Proof 06821. The total combined annual consumptive use from all 3 wells would not exceed 17.92 acre feet.
