**Period of Use:** ONE YEAR FROM DATE OF ISSUANCE  
**Priority Date:** 06/02/1954

\*\*\*\*\*

**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 77223 is issued subject to the terms and conditions imposed in said Permit 77223 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0986 cubic feet per second or 40.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

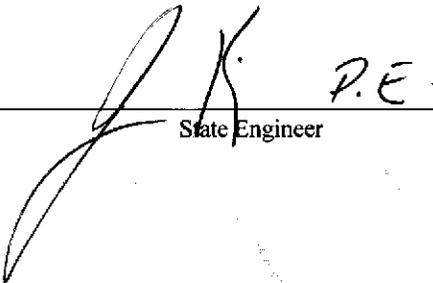

N/A

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 19<sup>th</sup> day of February, 2013

RECEIVED

212-cc

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Sections 22, 25,26,27,28 of T19S, R57E; and Section 30 of T19S, R58E. Is unchanged. See existing map for permit 77223.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Sections 22, 25,26,27,28 of T19S, R57E; and Section 30 of T19S, R58E. See existing map for permit 77223.

9. Proposed use will be from 0101 to 1231 of each year.  
Month and Day Month and Day

10. Existing use permitted from 0101 to 1231 of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing well

12. Estimated cost of works NA well is existing

13. Estimated time required to construct works NA well is existing

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Part of a multi-million dollar administrative and recreational facility known as the Middle Kyle Complex. To adequately respond to fire emergencies and met the Clark county code there is a need to periodically increase the diversion rate to adequately respond to fire emergencies and met the Clark county code. This change permit also requests we continue to be permitted to divert 1500 gpm for up to 2 hours to meet an emergency.

16. Miscellaneous remarks:

The well assigned under permit 77223 will be abandoned and plugged in accordance with NAC Chapter 334.429.
