5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)
Within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 21, T. 25N., R. 34E., M.D.M. or at a point from which the N $\frac{1}{4}$ Corner of said Section 21 bears N. 88° 41' W., a distance of 2,518 feet. (Buena Vista Well)
See attached supporting map.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)
See Attached

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled and cased well, pump, motor, totalizing meter, water storage tank and piping to serve the mine project area.

9. Estimated cost of works: in excess of \$250,000

10. Estimated time required to construct works: 2 years
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 10 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

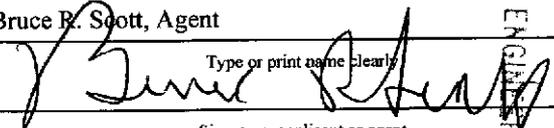

Water under this Application and two (2) other Applications being filed concurrently will be utilized for the development of a large proposed iron mine within the place of use. Water will be used for mine exploration, mine development, mine construction, milling, road construction, dust suppression, and other mining purposes.
