

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: ROBERT R. DEPAOLI AND DEBRA M. DEPAOLI
Source: UNDERGROUND
Basin: HIGH ROCK LAKE VALLEY
Manner of Use: STOCKWATERING
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/24/2013

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.017 cubic feet per second, sufficient to water 500 head of cattle, but not to exceed 11.2 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 18 2014

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

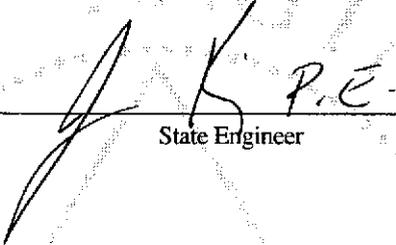

December 18 2016

Map in support of proof of beneficial use shall be filed on or before:

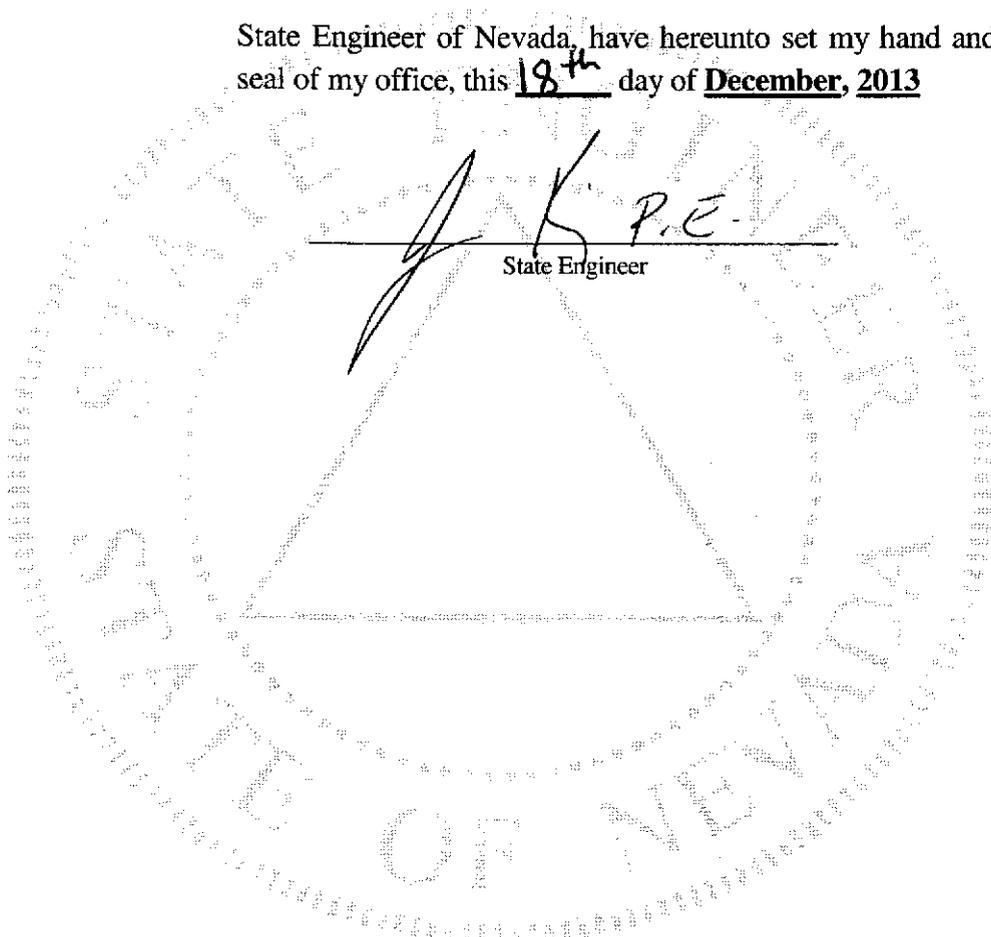

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 18th day of December, 2013

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	APR 24 2013
Returned to applicant for correction	AUG 31 2012 under
Corrected Application filed	Map filed <u>82090T</u>

The applicant Robert R. Depaoli and Debra M. Depaoli
1415 Arobio Lane of Lovelock
Street Address or P.O. Box City or Town
Nevada 89419 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

RECEIVED
 2013 APR 24 AM 11:10
 STATE ENGINEERS OFFICE

1. The source of water is Underground
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.017 cfs or sufficient water for 500 cattle (12.3 AF)
One second foot equals 448.83 gallons per minute.
 (a) If stored in a reservoir give the number of acre-feet _____
3. The water is to be used for Stockwater
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
 (a) Irrigation, state number of acres to be irrigated _____
 (b) Stockwater, state number and kind of animals 500 cattle
 (c) Other use (describe fully in No. 12) _____
 (d) Power:
 (1) Horsepower developed _____
 (2) Point of return of water to stream _____

*High Rock Lake Valley
 2 - 25
 Wa*

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SW 1/4 SW 1/4, Section 34, T.38N., R.23E., M.D.B. & M., or at a point from which the SE ^{corner} of said Section 34 bears S. 80° 50' 00" E., a distance of 4,518.4 feet. Refer to map filed under Permit 82090-T for proposed point of diversion.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

S 1/2 S 1/2, Section 34, SW 1/4 SW 1/4, Section 35, T.38N., R.23E., M.D.B. & M.; N 1/2 N 1/2, Section 3, NW 1/4 NW 1/4, Section 2, T.37N., R.23E., M.D.B. & M. Refer to map filed under Permit 80604 for proposed place of use.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled and cased well equipped with motor, pump and pipelines to convey water to a series of troughs within the place of use.

9. Estimated cost of works: \$50,000.00

10. Estimated time required to construct works: Completed - See Temporary Permit 82090-T

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Three (3) years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application is being filed to secure a source of stockwater to supplement existing spring sources within the Applicants' grazing allotment which have been adversely impacted by the drought. Water will be developed from a drilled and cased well and then piped to a series of troughs within the described place of use. This well is being developed pursuant to a drought relief program administered by the NRCS and replaces Permit 82090-T.

13. Miscellaneous remarks:

The proposed point of diversion and place of use is located in Hydrographic Basin 25 (High Rock Lake Valley).
