

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: ARTISAN EAST, LLC
Source: UNDERGROUND
Basin: ELKO SEGMENT
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/30/2013

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. Totalizing meters must be installed and maintained in the discharge pipelines near the point of diversion and accurate measurements must be kept of water placed to beneficial use at each residence. The totalizing meters must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued based upon the dedication of the 4.0 acre-feet of water previously relinquished for the drilling of two domestic wells on Elko County APN 006-09P-128 and 006-09P-129. This is a portion of the water relinquished under 69713R11.

This permit is issued for 1.12 acre-feet annually of water use for each parcel, or a total of 2.24 acre-feet annually of the 4.0 acre-feet relinquished. The remainder, 1.76 acre-feet, remains in the groundwater source and is unavailable for future appropriation.

Any application to change the place or manner of use of this permit will be subject to additional evaluation and approval by the State Engineer.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.05 cubic feet per second or 2.24 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

October 15 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

October 15 2018

Map in support of proof of beneficial use shall be filed on or before:

October 15 2018

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 15th day of **October, 2013**

 P.E.

State Engineer
