**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 60139 is issued subject to the terms and conditions imposed in said Permit 60139 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The Permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 60547 and 82891T shall not exceed 23.07 acre-feet annually.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The issuance of this temporary permit reduces the total combined duty under Permits 60139, 78669, 80177 and 82161 to 1207.56 acre-feet.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this temporary permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.033 cubic feet per second or 20.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

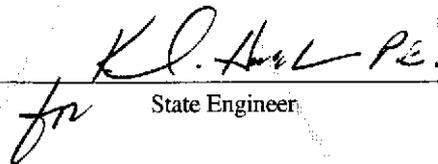

N/A

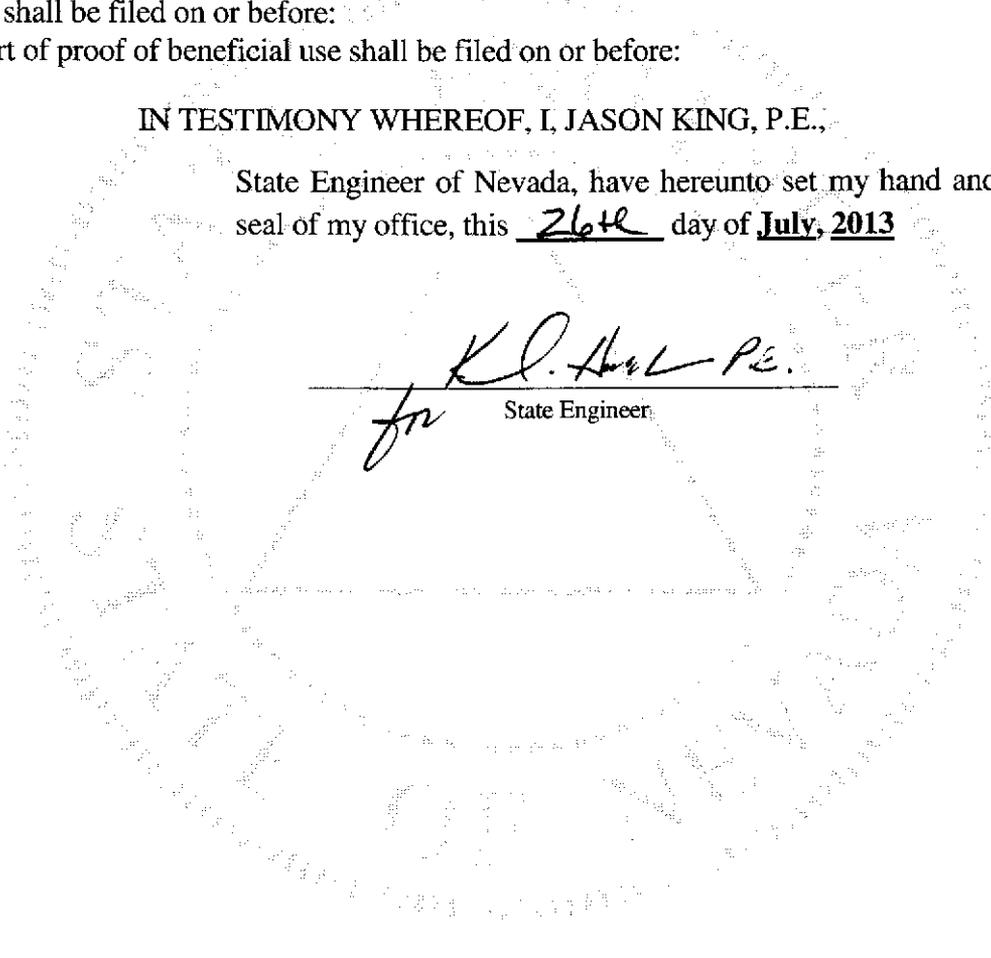

Map in support of proof of beneficial use shall be filed on or before:

Chapter 30 - CRESCENT VALLEY TOWN WATER SYSTEM

.010 Authority

- A. The Crescent Valley water system shall be managed and governed by the Board of County Commissioners, unless the Board, upon a resolution duly passed pursuant to Nevada Revised Statutes 269.580, allows the Crescent Valley Town Advisory Board certain managerial powers over the water system.
- B. Amendments to this chapter may be made as necessary by a majority vote of the Board.
- C. Any violation of this duly adopted ordinance, or damage to Crescent Valley Town Water facilities, shall be punished as a misdemeanor.

.020 Definitions

As used in this chapter, unless the context requires otherwise, the following definitions apply.

**Board** means the Board of County Commissioners.

**Connection charges or connection fees** means a fee charged new customers in order to equalize the investment in plant, equipment and other facilities made by present water users in Crescent Valley. The charge is for the right of service in the system.

**Department** means the County Department of Public Works.

**Director** means the Director of Public Works or any of his duly authorized representatives.

**System** means the system of conduits, pumps, treatment plant and other structures used for the purpose of supplying water to the residents of Crescent Valley and conveying this service to all users.

.030 Classification of service

- A. **Residential** This category applies strictly to single-family dwellings served by nothing larger than a three-quarter (3/4") inch pipe.
- B. **Commercial** This category applies to all services not classified as residential.
- C. **Variations** Customers utilizing an existing meter no longer applicable to the use of their property may request a different categorization of their service despite the size of the meter previously installed, valid until such time that the
