

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: JASON CORPORATION
Source: UNDERGROUND
Basin: MASON VALLEY
Manner of Use: INDUSTRIAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/18/1960

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 75610, is issued subject to the terms and conditions imposed in said Permit 75610 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The issuance of Permits 82935 and 83017 reduces the total combined duty of Permits 75610, 75611, and 76234 to 0.2318 cfs and 60.31 acre-feet annually.

The issuance of Permits 82935 and 83017 reduces the individual duties of both Permits 75611 and 76234, which are supplemental to Permit 75610, from 81.31 acre-feet annually to 60.31 acre-feet annually.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.066 cubic feet per second or 18.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

March 15 2017

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

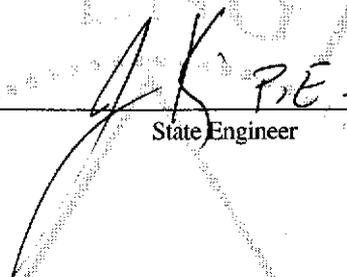

March 15 2019

Map in support of proof of beneficial use shall be filed on or before:

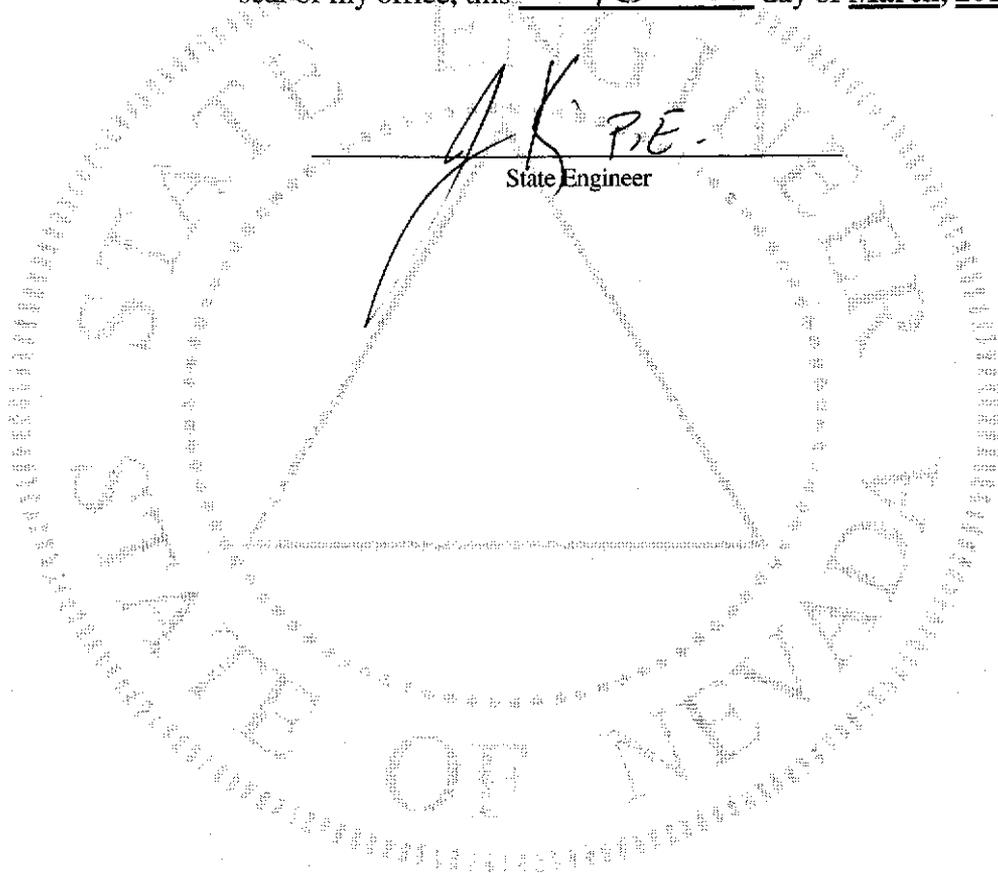

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 15th day of March, 2016

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office JUN 28 2019

Returned to applicant for correction _____

Corrected application filed _____ Map filed JUL 29 2011 under 81030

The applicant Jason Corporation
Post Office Box 35 of Yerington
Street Address or PO Box City or Town
Nevada 89447 hereby make(s) application for permission to change the
State and ZIP Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit No. 75610

1. The source of water is Underground Source
Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed pro rata share of the diversion rate and 18.0 AFA
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Industrial Purposes
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for Quasi-Municipal and Domestic
If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
within the SW1/4 of the SE1/4 of Section 31, T. 13N., R. 26E., MDM, or at a point from which the SW corner of said Section 31 bears South 88° 58' 15" West, a distance of 3,341.53 feet. (Refer to map on file under Application No. 81030)

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
SW1/4 SW1/4 of Section 36, T. 13N., R. 25E., MDM., or at a point from which the SW corner of said Section 36 bears S 82 degrees 42 minutes 47 seconds W, a distance of 1,256.0 feet. (Refer to map on file under Permit No. 75610 and Lyon County APN 012-011-11)

*Mason Valley
 9-108
 4*

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

NE1/4 SW1/4, SE1/4 SW1/4, NW1/4 SE1/4 and the SW1/4 SE1/4 of Section 31, T. 13N., R. 26E., MDM. (Refer to map on file under Application No. 81030)

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Portions of the SW1/4 SW1/4 of Section 36, T. 13N., R. 25E., MDM. (Refer to map on file under Permit No. 75610)

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing drilled and cased well equipped with a motor, pump and totalizing meter.

12. Estimated cost of works None - Existing

13. Estimated time required to construct works None Existing

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Five (5) years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The water under this application will be utilized for for sand and gravel operations and for various washing, screening, settling and dust suppression for aggregate operations.
