

## THE STATE OF NEVADA

### PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

**Name of Permittee:** GLEN AND DARLENE PETERS  
**Source:** UNDERGROUND  
**Basin:** SMITH VALLEY  
**Manner of Use:** IRRIGATION  
**Period of Use:** MARCH 1ST THROUGH SEPTEMBER 15TH  
**Priority Date:** 05/08/1972

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion of the waters of an underground source as heretofore granted under Permit 65590, is issued subject to the terms and conditions imposed in said Permit 65590 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 82941, 82942 and 82943 shall not exceed 345.6 acre-feet seasonally for the irrigation of 92.7 acres within the described place of use.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued subject to any determination of the waters that may be made under adjudication proceedings under NRS 533.090 through 533.320.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.313 cubic feet per second or 123.5 acre-feet seasonally, but not to exceed 3.73 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 4 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

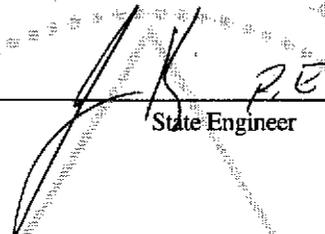

September 4 2019

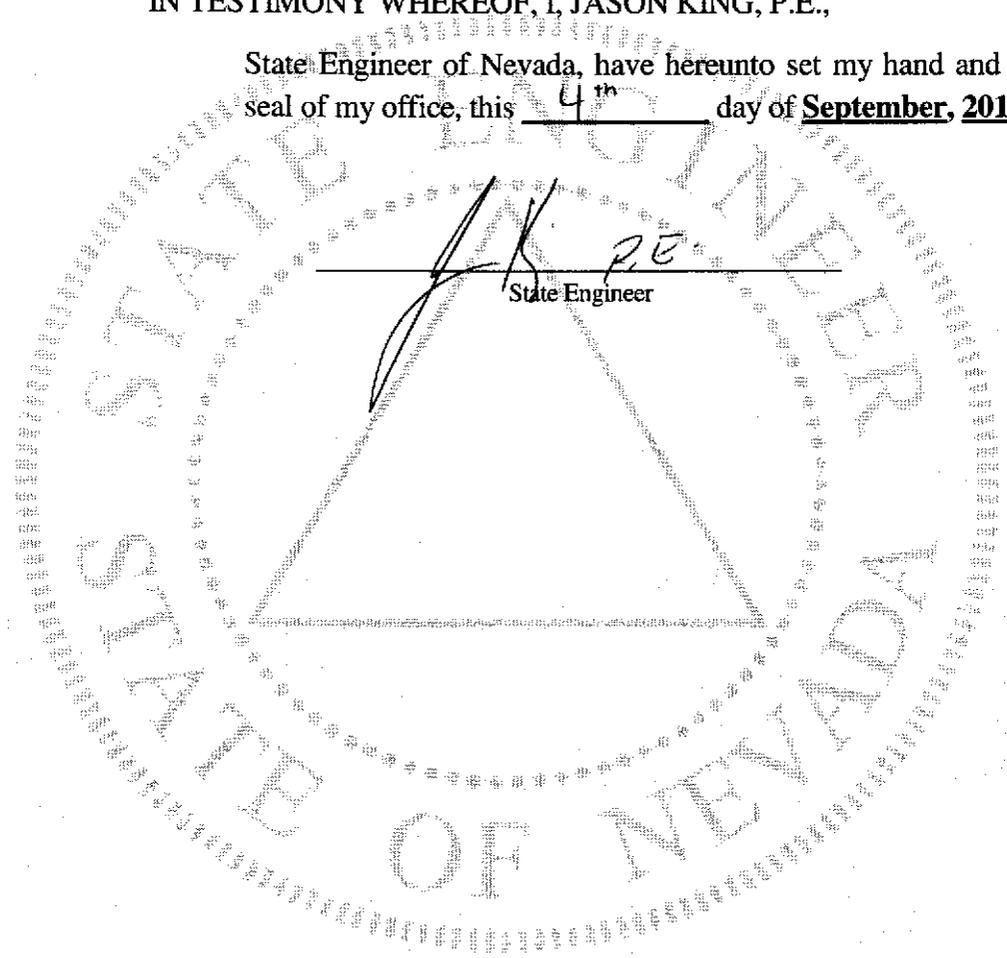

Map in support of proof of beneficial use shall be filed on or before:

September 4 2019

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 4<sup>th</sup> day of September, 2014

  
\_\_\_\_\_  
State Engineer

AMENDED

Application No. 82941

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY
Date of filing in State Engineer's Office JUN 28 2013
Returned to applicant for correction JUL 03 2013
Corrected application filed AUG 09 2013 Map filed AUG 09 2013

The applicant Glen and Darlene Peters
350 Burke Drive of Wellington
Nevada 89444
Street Address or PO Box City or Town
State and ZIP Code

hereby make(s) application for permission to change the
[checked] Point of diversion [ ] Place of use [ ] Manner of use [ ] of a portion
of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)
Permit 65590

- 1. The source of water is underground
2. The amount of water to be changed 0.313 cfs, 123.5 acre-feet
3. The water to be used for irrigation
4. The water heretofore used for irrigation
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
SW 1/4 SE 1/4 of Section 26, Township 12 North, Range 23 East, M.D.B. & M. or at a point from which the S 1/4 corner of said Section 26 bears S 30° 24' 5" W a distance of 388.1 feet
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
SE 1/4 NE 1/4 of Section 14, Township 12 North, Range 23 East, M.D.B. & M. or at a point from which the NE corner of said Section 14 bears N 2° 22' 10" E a distance of 1,605.1 feet

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Unchanged

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

92.7 Acres located in the W 1/2 W 1/2 Section 13 and the E 1/2 of the E 1/2 of Section 14, Township 12 North Range 23 East, M.D.B. & M.

9. Proposed use will be from March 1st to September 15th of each year.  
Month and Day Month and Day

10. Existing use permitted from March 1st to September 15th of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drill and case a 10-inch well to 365 feet, install submersible well pump and motor, meter, piping and connection to existing 12-inch PVC irrigation pipeline and install 3/4 center pivot

12. Estimated cost of works \$150,000

13. Estimated time required to construct works 2 years

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

It is anticipated that the new well site will provide adequate irrigation water at a suitable diversion rate to irrigate the existing 92.7 acres via the new 12-inch PVC water line and a new center pivot irrigation system. All water will be metered at the site. There is adjacent overhead three phase power for the submersible wellhead and the existing 12-inch PVC irrigation line is parallel to the existing overhead power line. It is also anticipated that the wellhead will include a pitless unit and water level measuring line.

16. Miscellaneous remarks:

A well was drilled at the existing point of diversion as required under the existing permit named herein; however the well drilling and construction resulted in a non-productive site with inadequate water.
