

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: ESTILL RANCHES, LLC
Source: UNDERGROUND (OLD CAMP WELL)
Basin: DUCK LAKE VALLEY
Manner of Use: STOCKWATERING
Period of Use: MARCH 1ST THROUGH NOVEMBER 30TH
Priority Date: 07/12/2013

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 71342, Certificate 19062, and Permits 82081 and 82964 shall not exceed 8.44 acre-feet seasonally, or sufficient to water 500 head of cattle or the equivalent number of sheep.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.015 cubic feet per second or 6.75 acre-feet seasonally, sufficient to water 400 head of cattle or the equivalent number of sheep.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 29 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

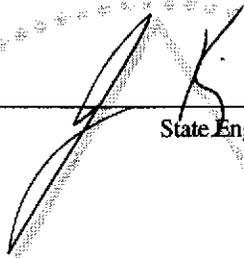

May 29 2016

Map in support of proof of beneficial use shall be filed on or before:

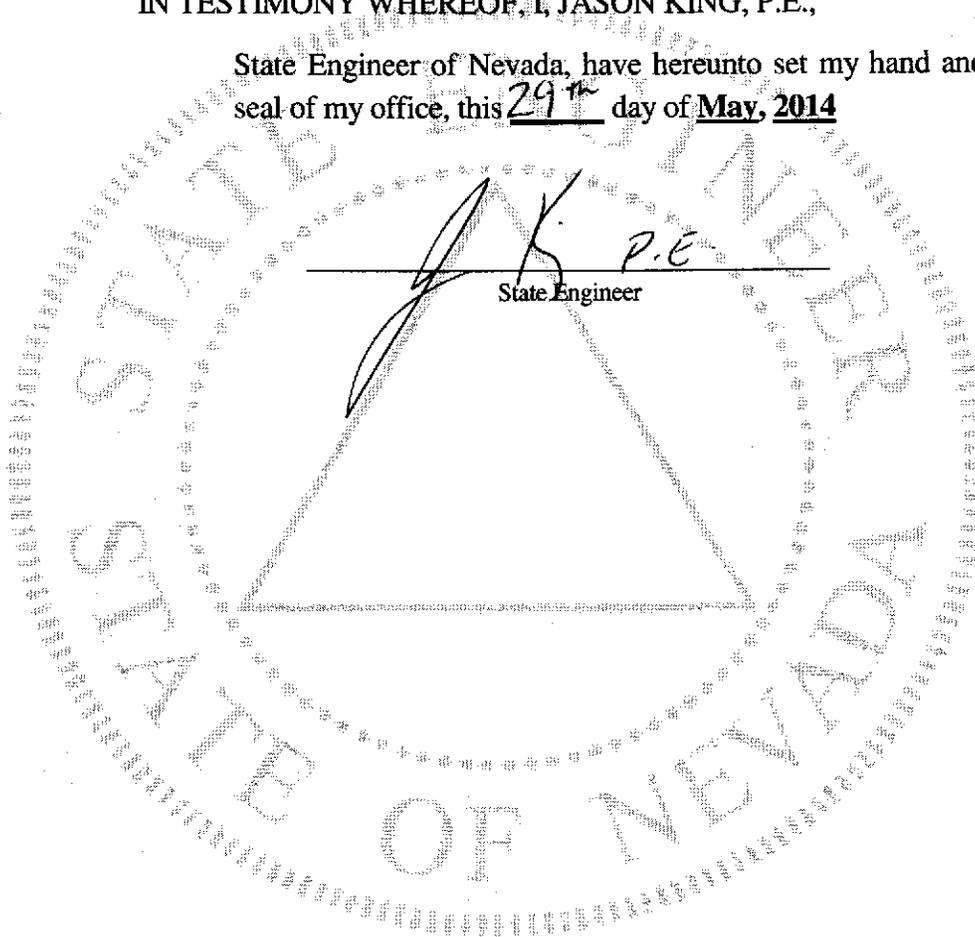

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29th day of May, 2014

State Engineer

 - Stockwater, state number and kind of animals 400 head of cattle or the equivalent number of sheep.
 - Other use (describe fully in No. 12) _____
 - Power:
 - Horsepower developed _____
 - Point of return of water to stream _____

*Duck Lake Villa
1 -16
Wa*

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)
within the SE1/4SW1/4 of Section 24, T.36N., R.20E., M.D.B.&M., Washoe County, Nevada, at a point from which the South West Corner of said Section 24 bears S68°21'45"W a distance of 2494.27'.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated.)
The SE1/4SW1/4 of Section 24, T.36N., R.20E., M.D.B.&M., Washoe County, Nevada.

7. Use will begin about March 1st and end about November 30th of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

An existing BLM Range Improvement Well which includes a Powder River Trough that can hold 400 gallons of water. The water is run in a 2" pipe to the Trough.

9. Estimated cost of works: \$0.00

10. Estimated time required to construct works: BLM Range Improvement Well, no well log found
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: none

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The existing BLM Range Improvement Well which includes a Powder River Trough that can hold 400 gallons of water. The water is run in a 2" pipe to the Trough. The Trough is 33' south of the well.

13. Miscellaneous remarks:

The Beneficial Use is stock watering and the Place of Use is a portion of the BLM Old Camp Grazing Allotment.
